# Contents

Foreword	
W.J.A. Dick	7
Introduction	
N.C. Davidson & T. Piersma	9
<b>Origins and distributions of subspecies</b>	
An analysis of the geographic variability in Knots <i>Calidris canutus</i> based on museum skins	
P.S. Tomkovich	17
Subspecies of the Red Knot <i>Calidris canutus</i> in the extreme north-western Canadian arctic islands	
W.E. Godfrey	24
Element profiles of feathers identify Knot populations, but the mystery of arsenic emerges	
A.A. Goede	26
Molecular genetics of <i>Calidris</i> , with special reference to Knots	
A.J. Baker	29
<b>Migration systems reviews</b>	
The migration system of European-wintering Knots <i>Calidris canutus islandica</i>	
N.C. Davidson & J.R. Wilson	39
The migration system of Afro-Siberian Knots <i>Calidris canutus canutus</i>	
T. Piersma, P. Prokosch & D. Bredin	52
Distribution, abundance, migration and moult of the Red Knot <i>Calidris canutus rogersi</i>	
M. Barter	64
The migration system of the Red Knot <i>Calidris canutus rufa</i> in the New World	
R.I.G. Morrison & B.A. Harrington	71
<b><i>Islandica</i> Knots in spring and summer</b>	
Observations on the departure of Knots from the Dutch Wadden Sea in spring	
C. Swennen	87
Routes of spring migrant Siberian and Nearctic Knots <i>Calidris canutus</i> diverge over Sweden	
S. Blomqvist & Å. Lindström	91
Early records of Knot migration in Iceland	
R.I.G. Morrison	95
Observations of Knot migration in Iceland 1970 - 1972	
R.I.G. Morrison & J.R. Wilson	101
Spring staging of Nearctic Knot in Iceland	
G.A. Gudmundsson & T. Alerstam	110
