

PUBLICATIONS AND THESES ON ANTARCTIC AND SUB-ANTARCTIC BIRDS, 1987

J. COOPER

*Percy FitzPatrick Institute of African Ornithology, University of Cape Town, Rondebosch 7700, South Africa**Received 6 April 1988, accepted 18 April 1988*

SUMMARY

COOPER, J. 1988. Publications and theses on Antarctic and sub-Antarctic birds, 1987. *Cormorant* 16: 41-45.

Ninetyone scientific publications and theses on Antarctic and sub-Antarctic birds for the year 1987 are listed by title. This annual list is produced by the Bird Biology Subcommittee of the Scientific Committee on Antarctic Research (SCAR) Working Group on Biology as a service to marine ornithologists.

INTRODUCTION

In 1986 the Bird Biology Subcommittee of the Scientific Committee on Antarctic Research (SCAR) Working Group on Biology recommended that a list of recent publications on Antarctic and sub-Antarctic seabird species from 1984 onwards be prepared. The first listing, for the years 1984-1986, has been published (Cooper 1987, *Cormorant* 15: 67-88). It is intended to produce annual lists, this being the first for the year 1987.

The list has been compiled by scanning the relevant literature and abstracting services, and by correspondence with members of the subcommittee. Readers are requested to send reprints of their recent relevant literature, including ones missing from this and previous lists, to the author for inclusion in subsequent lists.

ACKNOWLEDGEMENTS

I thank members of the SCAR Bird Biology Subcommittee and a number of other marine ornithologists for their assistance. Christine Phillips, Librarian, British Antarctic Survey, kindly checked a draft for errors.
