#### REQUEST FOR ASSISTANCE

The Pacific Seabird Group is compiling translations of foreign seabird, shorebird, and waterfowl research. Every group that studies these birds seems to have a file of translated papers yellowing with age and neglect, translations often duplicated elsewhere. To counter this, we request all ornithologists who have translations to contact us. Originals sent to us will be copied and returned; copies will be deposited in the Josselyn van Tyne Library of the Wilson Ornithological Society for the use of all researchers. All translations sent will be cited in the PSG Bulletin. For more information, please contact :
