A BIRDER'S GUIDE TO EASTERN MASSACHUSETTS

Bird Observer of Eastern Massachusetts, Inc., recently signed a contract with the American Birding Association (ABA) to produce *A Birder's Guide To Eastern Massachusetts*. The guide will be based primarily on selected where-to-find-birds articles that have appeared in *Bird Observer* since its inception. It will be produced and published by ABA under its series of bird-finding guides. ABA hopes to have the guide ready for sale by the end of 1993. As the publication date approaches, *Bird Observer* will announce the availability of the guide.
