Of the 161 reports received, 243,760 birds of 272 species were banded in EBBA territory during 1965. Additional reports from outside EBBA territory were also received but are not included in the totals. Also not included in the species totals were a few exotic species that some banders reported. Sub-species, such as Yellow and Western Palm Warbler, were not tallied separately although many banders listed them separately.

This was another big year for EBBA, and I would like to thank all the banders who contributed to this report. Special thanks also, for the many personal notes that were sent to me with the reports. I regret that I didn't have time to acknowledge all of these notes personally and would like to take this opportunity to express my thanks for all the many notes and comments, which are always welcome.

Mrs. Neil M. Knorr, 58 Steamboat Landing Rd., South Amboy, N. J. 08879.
