

As in the ten-year index for Vols. 13 - 21 (copies still available from the Editor @ \$1.00) and for the Vols. from 21 to the present Vol. 29 Index, we are very greatly indebted to Mary (Mrs. John C.) Schmid.

Entries are separated by semicolons. The figures represent Issue number, Page number. In some cases symbols in parenthesis are included, as follows:

(A) Age of	(D) Disease	(Pl) Plumage	(S) Sexing
(B) Bait	(Dr) Drawing	(Re) Recovery	(St) Study
(Ba) Band	(Ph) Photograph	(Rt) Return	(Tr) Trap
	(I) Identification		

To conserve space, individual references for each species mentioned in "Who Is Banding What?" columns are not included.

## WALK-IN GROUND TRAP

By Joseph J. Malek

Simple ground trap, to be put  
around main feeder station to trap  
those ground feeders.

Height: 8 to 12"; diameter 12";  
1/2" mesh wire; top door with  
spring to remove birds from trap.

Have trapped White-throats,  
Nuthatches, Cardinals - even a  
Blue Jay squeezed through the  
narrow entrance to get to seeds.
