

We have all had a chance to read Frank Frazier Jr.'s first issue as Editor of EBBA News and I am sure you all join me in hearty congratulations.

It is no secret that the caliber of EBBA News is set by the articles which we, the members, send to the Editor. Our publication serves as a medium for exchanging banding information on all levels of achievement so as to help everyone become a better bander, as well as providing space where results of study and research can be published. This means that, as in the past, our Editor likes and needs material from as many of you as possible, be it a note or a tome. Our membership as of June 1st was 725 and Frank would like to hear from you all.

While we are on the subject of publications you might be interested to know that the Northeastern Birdbanding Association has expanded Bird-Banding's staff to include an Editorial Advisory Board consisting of a member from the Eastern, Inland, Ontario and Western Banding Associations. Jeff Swinebroad has been chosen by NEBBA and EBBA to represent us. Many banders find that EBBA News and Bird Banding make a nicely rounded publications library and are therefore members of both organizations. We are fortunate in having two such fine publications available to us.

Rebecca Cregar, "Hackmatack", Islesboro, Maine 04848 (through Aug. 1967)
