

EDITOR'S NOTE Many EBBA members, we are sure, have had (or are having) experiences in their banding activities that other banders will find both interesting and instructive. The article which is reprinted above is an example of just such an experience.

We urge EBBA members to search their memories and files - and send us pictures and descriptions of matters of interest. (Deadline for the Sept.-Oct. issue is Sept. 1, for the Nov.-Dec. issue, Nov. 1.)
