

Issues are separated by semicolons. The figures represent Issue number, Page number. In some cases symbols in parentheses are included as follows:

(A) Age of	(D) Disease	(Ph) Photograph	(S) Sexing
(B) Bait	(Dr) Drawing	(Pl) Plumage	(St) Study
(Ba) Band	(Fr) Foreign retrap	(Rc) Recovery	(Tr) Trap
	(I) Identification	(Rt) Return	

To conserve space, individual references for each species mentioned in "EBBA Annual Banding Summary - 1969" are not included.

- (4)171-173 "Reason Awake" by Rene Dubos
- (5)219-221 "On the Shred of a Cloud" by Rolf Edberg
- (5)221 "The Urner Field Observer" April 1970
- (6)274-276 "Since Silent Spring" by Frank Graham, Jr.

\* \* \*

The index to volume 33 - 1970, was prepared by Mrs. John Schmid. Members often write the editor with comments how this can be done and that... Such comments are gratefully received when they are constructive criticism but unfortunately they are not always charitably expressed. Works such as the above, the banding summary, the membership list and other lengthy compendiums as well as the entire preparation of each issue take an immense amount of time...time willingly and happily donated to the association. It is often assumed that these tasks are "routine" or "matter of course". We hope you will keep in mind that all persons working on the immediate preparation of the News hold down full-time jobs and in many cases also have a family...when you issue your next volley of criticism. When your editor does not reply to your criticism, you can take it that it was not deemed to be "constructive". With this in mind, we would like to thank Mary Schmid once again for the tremendous job she did on this year's index. (Editor)
