

RECOVERY REPORT  
and FOREIGN RETRAP  
EXCHANGE

In the previous issue of EBBA News, we considered doing away with recoveries. Since then, the survey has indicated that there is really an enormous amount of interest in this column. Because of that, provided everyone will do their utmost to supply us with their recoveries, we will continue this column. Those who voted that they did not like it-- I can only say, we cannot please everyone. The poll makes this abundantly clear!
