AMERICAN BANDING DIRECTORY
(A thru K)

FOREWORD

In 1972, Editor W. Rydzewski of the Polish Zoological Society, publisher of THE RING, published a worldwide index of ornithologists known as "Index Ornithologorum", the index contains @ 117 names and short biographical descriptions of ornithologists residing currently in the United States. The majority of these persons are not banders.

The "American Banding Directory" was not intended to duplicate Dr. Rydzewski's efforts. As such, it deals with banders in the United States, but possibly a very few non-banders have gotten into it also. The basic idea came from the Polish work; the effort and dozens of hours of hard work that went into it, was shared by Editor Fred Schaeffer and (Ex-) Co-Editor Harvey Farber.

What follows is a list of abbreviations found in the directory. In some cases the names of periodicals were included when we could not find out the correct names of the organizations that publish them.

We would like to thank the following people contributing to this effort, aside from the above-mentioned: Sharon Snyder, our typist; Jeff and Jeanne Swinebroad, our proofreaders, and lastly, Mr. Edward M. Johnson, our printer.
