

## FIELD OBSERVATIONS

**Fall Report: August-November 2000.**—The observations listed here are reports of significant birds or numbers of birds reported to the Field Observations Committee (FOC). Reports submitted to the Committee should be in the following format: species, number of individuals, age and sex of the bird(s), color morph if applicable, location (including county), date, observer(s), and significance. Reporting seasons are winter (December-February), spring (March-May), summer (June-July), and fall (August-November). Submit reports to regional compilers within two weeks after the close of each season, or to the state compiler within one month. Reports sent via e-mail are greatly preferred over those sent via regular mail. Addresses of the FOC members are found at the end of this report.

Sight-only observations are considered "reports" while only those supported by verifiable evidence (photographs, video or audio tapes, or specimens) are called "records." Species for which documentation is required by the FOS Records Committee (FOSRC) are marked with an asterisk (\*). A county designation (*in italics*) accompanies the first-time listing of each site in this report. Abbreviations used are: BFRA = Brown's Farm Road area SE of Belle Glade (*Palm Beach*), CP = county park, ENP = Everglades National Park, EOS = end of season, FDSP = Fort De Soto CP (*Pinellas*), FWBSTF = Fort Walton Beach STF (*Okaloosa*), HISRA = Honeymoon Island SRA (*Pinellas*), MINWR = Merritt Island NWR (*Brevard*), NWR = national wildlife refuge, PPM = *Polk* phosphate mines, PPSP = Paynes Prairie State Preserve (*Alachua*), SP = state park, SRA = state recreation area, SCCP = Saddle Creek CP (*Polk*), SMNWR = St. Marks NWR (*Wakulla*), SRSTF = Springhill Road STF (*Leon*), STF = sewage treatment facility, TCS = Turkey Creek Sanctuary (*Brevard*), and N, S, E, W etc., for compass directions. Bold-faced species denote birds newly reported or verified in Florida.

### SUMMARY OF THE FALL SEASON

The drought continued in the Peninsula through the fall, despite a relatively active hurricane season, but heavy rains provided some relief in the Panhandle. Most notable of the tropical storms was Hurricane *Gordon*, which moved north through the eastern Gulf 16-17 September, before coming ashore near Cedar Key just before midnight on the 17th. *Gordon* exited the state west of Jacksonville early on the 18th and left massive fallouts in many areas of the Peninsula. At Sanibel Island 16-17 September, Charlie Ewell reported "thousands" of Common Nighthawks and passerines, and a number of pelagic birds—including 300 jaegers, and 8 Brown Noddies sitting in trees—seeking refuge in San Carlos Bay. Dave Goodwin commented that the fallout in *Pinellas* 16 September was the largest he had seen in his 35 years of birding in Florida, with "hundreds upon hundreds" of migrants. At Turkey Creek Sanctuary in *Brevard*, 32 species of wood-warblers were seen this fall. A number of wood-warblers were reported in larger than usual numbers, including Nashville, Cerulean, Kentucky and especially Wilson's. The latter species staged an unprecedented invasion into Florida. The western Panhandle experienced what Bob Duncan called a "wild season," with 15 species of western vagrants, possibly related to the severe drought in the Southwest.

Many rarities were reported this fall, most notably flycatchers. Twelve species require FOSRC review: Bar-tailed Godwit, Heermann's Gull (the first Florida report), Broad-tailed Hummingbird, Willow Flycatcher, two Sulphur-bellied Flycatchers, Tropical/Couch's Kingbird, Cassin's Kingbird, Fork-tailed Flycatcher (the 4th this year!), Bicknell's Thrush, MacGillivray's Warbler, Brewer's Sparrow (the first Florida report), and Bullock's Oriole. Other lesser rarities were also well-represented. Two new exotics were

reported, one of these videotaped. Finally, this fall report is quite large (just under 8800 words), a trend apparent in recent years, especially with the fall season. The primary reason for such a large report is the number of notable, weather-related sightings, but an ever-increasing number of observers posting to Internet lists is also responsible. Internet postings of rarities that lack satisfactory documentation have become a problem continentwide, and solutions are underway in *Florida Field Naturalist* and *North American Birds*. One solution being enacted in Florida is to rely solely on non-Internet observations specifically sent to FOC members by active birders. Beginning with the Winter 2000-2001 report, observations not sent directly to the FOC likely will not be published.

## SPECIES ACCOUNTS

- COMMON LOON: 1 in flight S of La Belle (*Hendry*) 13 Nov (V. McGrath, V. Lucas et al.).
- EARED GREBE: 4 at LARA 13 Sep and 1 there to 21 Sep (H. Robinson); 2 at FWBSTF 14 Sep and up to 3 there 17 Oct-29 Nov (B. and L. Duncan, D. Ware et al.); 2 at PPM 15 Sep (P. Timmer, C. Geanangel); 2 (1 in mostly breeding plumage) at SRSTF 28 Sep-6 Oct (G. Menk, T. Curtis et al.), and 1 there 12 Oct-20 Nov (G. Menk et al.).
- CORY'S SHEARWATER: 10 off Port Canaveral (*Brevard*) 8 Nov (B. Pranty et al.).
- MASKED BOOBY: 1 from Santa Rosa Island (*Santa Rosa*) 8 Sep (B. and L. Duncan).
- BROWN BOOBY: 1 juvenile resting on the St. Marks River (*Wakulla*) 24 Sep (B. Henderson, D. Wells, details to FOC); 1 juvenile off Port Canaveral 8 Nov (B. Pranty et al.).
- AMERICAN WHITE PELICAN: 125+ at BFRA 16 Sep (J. Holstein, C. Weber); 150 off Pass-A-Grille Beach (*Pinellas*) 12 Oct (L. Atherton); 200 over Bald Point (*Franklin*) 18 Oct, and another 350+ there 26 Nov (J. Dozier); 50 that summered on Newnans Lake (*Alachua*) had increased to 608 by 25 Nov (L. Davis); 45 at Weekiwachee Preserve (*Hernando*) 27 Nov (A. and B. Hansen); 356 at Lake Hollingsworth by 27 Nov (T. Palmer); 11 at Lake Jackson 29 Nov (M. Hill).
- BROWN PELICAN: 1 at Newnans Lake 19 Aug (J. Hintermister et al.); 1 at PPSP 24 Aug (P. Lefebvre); 3 at Lake Willis (*Orange*) 29 Oct (T. Palmer); 4 adults at Lake Istokpoga (*Highlands*), where birds are becoming regular, 19 Nov (M. McMillian).
- GREAT CORMORANT: 1 immature at Titusville (*Brevard*) 25 Nov-EOS (C. and K. Rada-maker [photos to FOC] et al.).
- ANHINGA: 27 over Curry Hammock SP (*Monroe*) 27 Oct and 11 there 5 Nov (D. Lovitch et al.).
- MAGNIFICENT FRIGATEBIRD: 1 over Alligator Point 27 Aug (J. Murphy); 13 over Bald Point 17 Sep (J. Dozier); 14 over Winter Haven (*Polk*) 17 Sep (P. Fellers, C. Geanangel); 1 over St. Joseph Peninsula (*Gulf*) 14 Oct (G. Sprandel).
- AMERICAN BITTERN: 1 at PPM 15 Oct (P. Timmer, C. Geanangel); 1 over Curry Hammock SP 26 Oct (D. Lovitch et al.); 1 ate a banded water snake at Eagle Lakes Park (*Collier*) 18 Nov (V. Lucas et al.); 1 at Lake Jackson 29 Nov (M. Hill).
- LEAST BITTERN: 1 at FDCP 18 Sep (L. Atherton, R. Webb).
- "GREAT WHITE HERON:" [the same?] 1 E of Eastpoint (*Franklin*) 16 Aug (J. Dozier) and at Yent's Bayou (*Franklin*) 18 Sep (E. Lovestrand); 1 at St. Augustine (*St. Johns*) 18-21 Aug (D. Reed).
- GREAT EGRET: 179 at Newnans Lake 8 Aug (H. Adams); 3000+ at BFRA 16 Sep (J. Holstein, C. Weber).
- SNOWY EGRET: 915 at BFRA 16 Sep (J. Holstein, C. Weber).
- WHITE × SCARLET IBIS: 1 "pink" ibis at Port Canaveral (*Brevard*) 18 Nov (F. and Ruth Clark) had been present in the area "for several years" (N. Sekera).
- GLOSSY IBIS: 1 at HISRA 14 Oct (P. Blair, K. Nelson).
- SACRED IBIS (*Threskiornis aethiopicus*): 2 at the Palm Beach Solid Waste Authority site 13 Aug (P. Merritt, photos to FOC). This is the first published Florida report, but P. William Smith (in litt.) is aware of earlier, unpublished sightings from SE Florida.

- ROSEATE SPOONBILL: up to 6 at Newnans Lake to 2 Nov (J. Hintermister et al.); 1 at Weekiwachee Preserve 6 Aug (C. Black); 418 (!) at BFRA 16 Sep (J. Holstein, C. Weber); 1 at Hernando Beach Park (*Hernando*) 16 Oct (A. and B. Hansen); up to 16 at many *Polk* sites variously this fall (P. Fellers, T. Palmer).
- WOOD STORK: 800+ in one field at BFRA 27 Aug (D. Simpson, B. Pranty et al.); 107 at Lake Hollingsworth 29 Aug (T. Palmer).
- FLAMINGO SPECIES: 1 at Cedar Key (*Levy*) 25 Sep-3 Oct (D. Henderson); 1 at Pine Island Sound (*Lee*) 26 Sep (J. Gray, D. Mahan, details to FOC).
- GREATER FLAMINGO: 2 flying S over Curry Hammock SP 18 Sep (*vide* C. Borg); 1 at Boca Chica (*Monroe*) 16 Oct (D. Lovitch, C. Borg); up to 20 at Snake Bight, ENP (*Monroe*) through the season (D. LaPuma et al.).
- BLACK SWAN: 2 at Jacksonville Airport (*Duval*) 9 Aug (R. Norton).
- BLACK-BELLIED WHISTLING-DUCK: 1 pair with 9 day-old chicks at Gainesville (*Alachua*) 26 Aug (B. Roberts); 1 pair with 6 young at *Hamilton* phosphate mines 3 Oct (J. Krummrich); 50, including 8 downy young in 2 broods, at PPM 28 Oct (R. Paul, A. Schnapf et al.).
- FULVOUS WHISTLING-DUCK: 300 at BFRA 20 Aug (C. Ewell, W. Winton) and 100+ there 19 Nov (J. Holstein, C. Weber et al.); flocks of 35 and 40 heading NW over Port Canaveral and just offshore 11 Nov (B. Pranty, D. Goodwin, W. Biggs et al.); 30 flying N past Canaveral National Seashore (*Volusia*) 26 Nov (J. Puschock).
- GREATER WHITE-FRONTED GOOSE: 3 (2 adults with pink bills) at Viera Wetlands (*Brevard*) 15-19 Nov (W. George et al.); up to 3 (with orange legs and bills) at FWB-STF 17-29 Nov (D. Ware, B. and L. Duncan et al.).
- SNOW GOOSE: 6 (2 blue morphs) at Bald Point 12 Nov (B. Allen); up to 9 (1 blue morph) at SRSTF 13-19 Nov (G. Menk et al.); 21 flying W over Santa Rosa Sound (*Escambia* and *Santa Rosa*) 25 Nov (B. and L. Duncan).
- CANADA GOOSE: 6 at Bayonet Point (*Pasco*, where 4 wintered last year to late Mar) 23 Nov-EOS (B. Pranty).
- RUDDY SHELDUCK: 4 (3 adults and 1 juvenile) along the Kissimmee River S of Avon Park Air Force Range (*Highlands* and *Okeechobee*) 14-15 Oct (D. McCoy, L. Albright et al.).
- WOOD DUCK: 2 over Curry Hammock SP 4 Nov (D. Lovitch et al.).
- AMERICAN BLACK DUCK: 1 at LARA 1 Nov-EOS (H. Robinson).
- MALLARD: 5 at Newnans Lake 16 Sep (J. Hintermister).
- MOTTLED DUCK: 44 at LARA 3 Sep (H. Robinson); 62 at Newnans Lake 16 Sep (J. Hintermister et al.).
- BLUE-WINGED TEAL: 1 at SRSTF 9 Aug (G. Menk, D. Harder); 1000 flew past St. Petersburg Beach (*Pinellas*) 17 Sep (L. Snyder).
- NORTHERN SHOVELER: 1 at LARA 16 Aug, and 3 there 20 Aug (H. Robinson); 3 at SRSTF 21 Aug (G. Menk).
- GADWALL: 2 at E Everglades (*Miami-Dade*) 4-12 Nov (J. Boyd); 30 over Curry Hammock SP 10 Nov (D. Lovitch et al.).
- REDHEAD: 4 at PPM 19 Nov (P. Timmer, C. Geanangel); 4 at Newnans Lake 25 Nov (L. Davis).
- GREATER SCAUP: 1 at SRSTF 18 Nov (G. Menk, K. MacVicar); 2 in N Tampa Bay (*Hillsborough*) 25 Nov (B. Ahern).
- LONG-TAILED DUCK: 1 female at SRSTF 17 Nov-EOS (D. Harder et al.).
- SURF SCOTER: 2 flew past Sebastian Inlet (*Brevard*) 10 Oct (D. Simpson).
- WHITE-WINGED SCOTER: 2 at Playalinda Beach (*Brevard*) 18 Sep (J. Dryja) set the record early fall date.
- HOODED MERGANSER: 245 at Newnans Lake 25 Nov (L. Davis).
- VULTURES AND RAPTORS: For the second year, staff of Hawkwatch International (J. M. Climent, D. Lovitch, J. Mauer, G. Phillips) conducted daily counts at Curry Hammock SP, 15 Sep-13 Nov. Because certain raptors are reluctant to cross large water bodies,

many birds moving through the Keys turn around and head back NE after passing the watch. In an attempt to account for this behavior, two totals are listed for each species. The "Gross" reflects all birds recorded, while the "Net" is the Gross minus those individuals that move back NE. This system is imperfect (e.g., note the negative Net for Swainson's Hawk!), but is necessary where migrants are heading in opposite directions. The "High" column represents the highest daily gross count.

Species	Gross	Net	High #	High date(s)
TURKEY VULTURE	20,144	3,720	3,815	5 Nov
BLACK VULTURE	3	1	2	30 Oct
OSPREY	1,202	984	171	5 Oct
BALD EAGLE	20	14	3	13 Nov
MISSISSIPPI KITE	13	13	5	15 Sep, 1 Oct
SNAIL KITE	4	4	1	four dates
NORTHERN HARRIER	562	492	61	6 Oct
SHARP-SHINNED HAWK	5,626	3,468	760	16 Oct
COOPER'S HAWK	1,038	640	114	8 Oct
RED-SHOULDERED HAWK	60	10	8	18 Oct
BROAD-WINGED HAWK	4,230	1,738	399	25 Sep
SWAINSON'S HAWK	300	-8	103	5 Nov
SHORT-TAILED HAWK	40	14	4	12 Nov
AMERICAN KESTREL	3,288	2,770	651	6 Oct
MERLIN	637	407	56	7 Oct
PEREGRINE FALCON	2,043	1,745	357	8 Oct
TOTALS:	39,349	16,127		

SWALLOW-TAILED KITE: 56 at Corkscrew Swamp Sanctuary (*Collier*) 6 Aug (R. Wooster) was the seasonal high at this roost.

WHITE-TAILED KITE: 2 adults at Buck Island Ranch (*Highlands*) 17 Aug (M. McMillian); 1 at Weekiwachee Preserve 26 Oct (A. and B. Hansen); 1 at SMNWR 11 Nov (T. Curtis); 1 harassed a Northern Harrier near Lonesome Island Road (*Highlands*) 13 Nov (V. McGrath, V. Lucas et al.); 3 at Homestead (*Miami-Dade*) 23 Nov (J. Boyd).

MISSISSIPPI KITE: 1 at Bald Point 27 Sep (J. Dozier); 1 at Alligator Point 6 Oct (J. Dozier).

SNAIL KITE: 1 at Ten Thousand Islands NWR (*Collier*) 16 Aug (T. Doyle); 1 at LARA 20 Aug (H. Robinson).

NORTHERN HARRIER: 1 male at Al-Bar Ranch (*Pasco*) 24 Aug (B. Pranty); 45 at LARA 29 Oct (H. Robinson).

COOPER'S HAWK: 10 at LARA 9 and 16 Aug (H. Robinson).

\*BROAD-WINGED HAWK: singles at LARA 10 and 27 Sep (H. Robinson), FDCP 20 Sep (L. Atherton), and Lutz (*Pasco*) 8 Oct (D. Bowman); 36, mostly immatures, at Sanibel Lighthouse (*Lee*) 14-15 Oct (C. Ewell, W. Winton et al.).

SHORT-TAILED HAWK: 1 or 2 at LaCrosse (*Alachua*) 11 Aug-21 Sep (K. Meyer, C. Graham); 2 (1 dark, 1 light) at SCCP 26 Aug, and 2 light morphs there 8 Sep (both P. Fellers); 1 dark morph at Lakes Park, Fort Myers (*Lee*) 24 Sep (C. Ewell, V. McGrath); 1 dark morph at Sarasota 27 Sep (J. Bouton); 1 at LARA 9 Oct (H. Robinson).

SWAINSON'S HAWK: 4 light morphs at W Kendall (*Miami-Dade*) 5 Nov (J. Boyd).

RED-TAILED HAWK: 1 "Kriders Hawk" at the "Celery Fields" (*Sarasota*) 23 Nov (K. Allen); 1 "Kriders Hawk" at Lake Jackson 26 Nov (H. Horne).

- GOLDEN EAGLE: 1 adult at *Hamilton* phosphate mines 16 Sep (J. Krummrich) set the earliest fall date.
- MERLIN: 1 at BFRA 9 Aug (F. Frazier).
- PEREGRINE FALCON: 5 at HISRA 8 Oct (E. Kwater et al.); 112 at Curry Hammock SP in a single hour 9 Oct (D. Lovitch et al.).
- YELLOW RAIL: 1 flushed from an "unmowed patch of grass" at Molino (*Escambia*) 7 Sep (G. Fleming).
- BLACK RAIL: 1 flushed at FWBSTF 27 Oct (B. Duncan, E. Case); 1 found injured in a yard at Pinellas Park (*Pinellas*) 17 Nov was recuperating at Suncoast Seabird Sanctuary (*vide* J. Fisher).
- KING RAIL: 1 at Tierra Verde (*Pinellas*) 23 Nov-EOS (R. Smith, L. Atherton).
- PURPLE GALLINULE: 14 at LARA 6 Aug; all were gone by 1 Oct (H. Robinson); 4 adults at Edward Ball Wakulla Springs SP (*Wakulla*) 25 Nov (G. Menk).
- COMMON MOORHEN: 1080 at PPM 18 Aug (P. Fellers).
- SANDHILL CRANE: 6 at the mouth of the Yellow River (*Santa Rosa*) 21 Nov (E. Lowsma); 7 flew E over N St. Johns 24 Nov (P. Powell).
- WHOOPIING CRANE: 1 at *Hernando* Airport 20-25 Sep (C. Black).
- GRAY CROWNED CRANE: 1 unbanded bird roosted at a farm on Orange Lake (*Alachua*) for the second winter (B. and S. Welkner; seen by R. Rowan 17 Nov).
- BLACK-BELLIED PLOVER: up to 3 at Newnans Lake 11 Aug-EOS (M. Manetz et al.); 1 in breeding plumage at SRSTF 16 Aug (G. Menk); 77 at LARA 12 Nov (H. Robinson).
- AMERICAN GOLDEN-PLOVER: up to 3 at Viera 8-11 Sep (D. Simpson); 1 at LARA 9-29 Oct (H. Robinson); 1 at FDCP 7 Nov (L. Atherton et al.); 4 in N Jacksonville (*Duval*) 9 Sep (R. Clark).
- SNOWY PLOVER: 1 at Talbot Island SP (*Duval*), where 1 wintered last year, 18 Oct-EOS (P. Leary et al.).
- WILSON'S PLOVER: 52 at Fort Myers Beach (*Lee*) 25 Nov (C. Ewell).
- SEMPALMATED PLOVER: 39 at PPM 18 Aug (P. Fellers); up to 20 at Newnans Lake 7 Aug-18 Sep (M. Manetz, J. Hintermister et al.).
- PIPING PLOVER: 1 at Fort Myers Beach 4 Aug and 30 there 25 Nov (C. Ewell); 48 at Big Marco Pass (*Collier*) 25 Aug (T. Below); 20 at Talbot Island SP 20 Nov included several birds banded from along the Great Lakes (P. Leary).
- AMERICAN OYSTERCATCHER: 1 at Newnans Lake 18 Sep (A. Kratter, R. Rowan et al.).
- BLACK-NECKED STILT: 2 at Weekiwachee Preserve 20 Aug (C. Black); 1 at FDCP 10 Nov (J. Bouton).
- AMERICAN AVOCET: 2 at SMNWR 5 Aug (W. Chambers); 1 at SRSTF 12 Aug (H. Horne); 15 at BFRA 12 Aug. (J. Holstein, A. and B. Liberman); 79 at PPM 18 Aug (P. Fellers); up to 2 at Newnans Lake 19 Aug-EOS (J. Hintermister et al.); 16 at N Jacksonville 27 Sep-3 Oct (R. Clark); 26 over Dunedin Causeway (*Pinellas*) 14 Oct (K. Nelson, P. Blair); 16 at FDCP 17 Oct (L. Atherton et al.); 26 at LARA 1 Nov (H. Robinson); 19 at Peace River Park (*Polk*) 4 Nov (T. Palmer).
- SOLITARY SANDPIPER: 1 at Hague Dairy (*Alachua*) 18 Nov-EOS (M. Manetz, R. Rowan).
- WILLET: 1 near Research Road, ENP (*Miami-Dade*) 19 Aug (D. Cunningham); 2 at Newnans Lake 24 Aug-3 Sep (B. Simons, M. Manetz et al.); 1 at LARA 7 Sep (H. Robinson); 150 at St. Petersburg Beach 17 Sep (L. Snyder).
- UPLAND SANDPIPER: up to 2 at LARA 6-16 Aug (H. Robinson); up to 24 at Homestead (*Miami-Dade*) 11-18 Aug (C. and L. Manfredi et al.); 1 at W Kendall 11 Aug (J. Boyd); 1 at Jacksonville Airport 14 Aug (R. Norton); 40 S of South Bay 20 Aug (C. Ewell, W. Winton); 1 at Bald Point 22 Sep (J. Dozier).
- LONG-BILLED CURLEW: up to 3 at Cedar Key 25 Sep-EOS (D. Henderson).
- HUDSONIAN GODWIT: 1 at BFRA 27 Aug (K. Radamaker et al., video to FOC by B. Pranty) and 23 Sep (B. and J. Hope); 1 at Newnans Lake 16 Sep (J. Hintermister, J. Bryan).
- \*BAR-TAILED GODWIT: 1 at Snake Bight, ENP (*Monroe*) 12 Nov (D. LaPuma, photo to FOC).

- MARbled GODWIT: 34 at Cedar Key 26 Sep (D. Henderson).
- RUDDY TURNSTONE: 1 at Big Marco Pass (*Collier*) 16 Aug was banded there at least 10 years ago (T. Below).
- RED KNOT: 160 at Fort Myers Beach 4 Aug and 300 there 26 Nov (C. Ewell); 1 at Newnans Lake 3 Sep (M. Manetz, J. Hintermister); 2 at BFRA 30 Sep (J. Holstein, C. Weber, B. Hope et al.); 1 at LARA 22 Oct (H. Robinson).
- SANDERLING: 250 at St. Petersburg Beach 17 Sep (L. Snyder); 1 at Lake Hollingsworth, Lakeland (*Polk*) 10 Oct (K. Radamaker).
- WHITE-RUMPED SANDPIPER: 2 at Newnans Lake 24 Aug (B. Simons); 1 at FWBSTF 4-8 Sep (B. and P. Tetlow, B. and L. Duncan); 52 at N Jacksonville 9 Sep (R. Clark); 1 at LARA 10 Sep (H. Robinson); 1 at the *Miami-Dade* landfill 12 Sep (L. Manfredi); 2 at BFRA 16 Sep (J. Holstein, C. Weber).
- BAIRD'S SANDPIPER: 2 at LARA 6 Aug (H. Robinson); 1 at FWBSTF 15-22 Sep (D. Ware, B. and L. Duncan).
- PECTORAL SANDPIPER: 94 at Homestead (*Miami-Dade*) 13 Aug (C. and L. Manfredi); 150 at Newnans Lake 3 Sep (J. Hintermister); 1 at PPM 15 Oct (P. Timmer, C. Geanangel).
- DUNLIN: 1 in breeding plumage at SMNWR 14 Aug-3 Sep (G. Menk, J. Cavanagh et al.); up to 9 at LARA 12 Oct-EOS (H. Robinson); up to 50 at Newnans Lake 5 Nov-EOS (L. Davis, A. Kent et al.), including 1 on 19 Nov that had slightly paler plumage, an orange upper mandible, and all-white flight feathers (R. Rowan, A. Kent).
- STILT SANDPIPER: up to 40 at Newnans Lake 5 Aug-5 Nov (R. Rowan, H. Adams et al.); 123 at LARA 18 Oct (H. Robinson); 40 at McKay Bay (*Hillsborough*) 25 Nov (R. Smith, D. Goodwin et al.); 5 at the "Celery Fields" 28-29 Nov (J. Bouton et al.).
- BUFF-BREASTED SANDPIPER: 2 at SMNWR 29 Aug (J. Dozier) and 1 there 16 Sep (D. and S. Jue); singles at LARA 30 Aug and 24 Sep (H. Robinson); 1 at BFRA 3 Sep (B. Hope, W. George); 2 at Viera 5 Sep (K. LaBorde); 18 at N Jacksonville 9 Sep (R. Clark); 3 at Cape San Blas (*Gulf*) 18 Sep (T. Menart, H. Loftin, E. Fontaine).
- RUFF: [the same?] 1 at BFRA 19 Aug (B. Hope, W. George), 27 Aug (female; K. Radamaker, B. Pranty et al.), and 16 Sep (J. Holstein, C. Weber).
- SHORT-BILLED DOWITCHER: up to 4 at Newnans Lake 13 Aug-3 Sep (L. Davis, M. Manetz).
- LONG-BILLED DOWITCHER: 1 at Gum Root Swamp 19 Aug (M. Manetz, J. Hintermister); up to 465 at LARA 1 Oct-EOS (H. Robinson).
- COMMON SNIPE: 2 at LARA 10 Sep (H. Robinson).
- AMERICAN WOODCOCK: 1 at Lake Placid (*Highlands*) 6 Aug (F. Lohrer); 1 at Brooker Creek Preserve (*Pinellas*) 16 Sep (D. Goodwin, E. Haney).
- WILSON'S PHALAROPE: up to 3 at Newnans Lake 13 Aug-18 Sep (L. Davis, J. Hintermister et al.); 1 at SRSTF 30 Aug-4 Sep (H. Horne); 1 at the *Miami-Dade* landfill 5 Sep (L. Manfredi); 2 at BFRA 30 Sep (J. Holstein, C. Weber, B. Hope et al.); 5 at PPM 15 Oct (P. Timmer, C. Geanangel).
- JAEGER SPECIES: 300, mostly Pomarine Jaegers, were "seeking refuge in San Carlos Bay" (*Lee*) 17 Sep (V. McGrath, C. Ewell et al.).
- POMARINE JAEGER: 300 at San Carlos Bay (*Lee*) 17 Sep (V. McGrath); 12 off Port Canaveral 8 Nov and 9 there 11 Oct (both W. Biggs et al.); 44, most or all Pomarine Jaegers, off Canaveral National Seashore (*Volusia*) 25 Nov (J. Puschock).
- PARASITIC JAEGER: 2 at Sebastian Inlet 23 Oct (D. Simpson); 2 off Port Canaveral 8 Nov (B. Ahern et al.).
- LONG-TAILED JAEGER: 1 immature, believed to be this species, inside Charlotte Harbor 18 Sep (J. Bouton).
- FRANKLIN'S GULL: single juveniles at Jetty Park (*Brevard*) 21 Oct (D. Simpson), Sebastian Inlet 23 Oct (D. Simpson), LARA 22 Oct (H. Robinson), HISRA 7 Nov (W. Yusek), Newnans Lake 19 Nov (R. Rowan, A. Kent), and Alligator Point 25 Nov (B. and L. Atherton); 1 at FWBSTF 22-29 Nov (D. Ware, B. Duncan et al.); 1 adult at Redington Beach (*Pinellas*) 30 Nov (*vide* R. Smith).

- \***HEERMANN'S GULL** (*Larus heermanni*): 1 second-year bird at FDCP 24 Oct-EOS (G. Nelson et al., photos to FOC by C. Radamaker).
- LESSER BLACK-BACKED GULL**: 4 at Huguenot Park (*Duval*) 24 Aug, and 41 there 12 Oct (both R. Clark); 1 at FDCP 5 Nov (P. Sykes); 1 at Alligator Point 25 Nov (B. and L. Atherton).
- GREAT BLACK-BACKED GULL**: 1 immature at Big Marco Pass 2 Aug (T. Below); 47 at Little Talbot Island SP and Huguenot Park 16 Sep (R. Clark).
- SABINE'S GULL**: single juveniles off Canaveral National Seashore (*Brevard*) 22 Oct (D. Simpson) and off Port Canaveral 8 Nov (D. Simpson et al., photo to FOC by B. Pranty).
- GULL-BILLED TERN**: 3 at BFRA 12 Aug (J. Holstein, A. and B. Liberman); 1 at Cedar Key 2 Oct (H. Adams); up to 5 at PPM 29 Oct-29 Nov (P. Timmer, C. Geanangel).
- CASPIAN TERN**: 25 at Little Talbot Island SP and Huguenot Park 16 Sep (R. Clark); 109 at LARA 12 Nov (H. Robinson); 750 at PPM 19 Nov (P. Timmer, C. Geanangel).
- ROYAL TERN**: 7 at PPM 18 Aug (P. Fellers); 500+ at Little Talbot Island SP and Huguenot Park 16 Sep (R. Clark); 3 at Lake Hollingsworth 2-4 Oct (K. Radamaker).
- SANDWICH TERN**: 249 at PPM 18 Aug (P. Fellers); 3 at Banana Lake (*Polk*) 24 Aug (T. Palmer); 140 at Little Talbot Island SP and Huguenot Park 16 Sep (R. Clark); 2 at Newnans Lake 18 Sep (J. Hintermister, R. Rowan et al.); 1 at Lake Hollingsworth 2 Oct (K. Radamaker).
- COMMON TERN**: 1 at PPM 18 Aug (P. Fellers); 395 at Little Talbot Island SP and Huguenot Park 16 Sep, and 3100 there 18 Sep (both R. Clark); 1 at SRSTF 22 Sep (D. Harder); 1000 at FDCP 1 Oct (P. Blair, K. Nelson); 3000 at HISRA 6-8 Oct (E. Kwater et al.).
- FORSTER'S TERN**: 291 at Little Talbot Island SP and Huguenot Park 16 Sep (R. Clark).
