Received 28 August 2000, accepted 17 September 2000.

SUMMARY

PHILLIPS, C.M. 2000. Publications and theses on Antarctic and sub-Antarctic birds, 1996. *Marine Ornithology* 28: 101–104.

A total of 106 scientific publications and theses on Antarctic and sub-Antarctic birds for 1996 is listed by the author. This annual list is produced on behalf of the Bird Biology Subcommittee of the Scientific Committee on Antarctic Research (SCAR) Working Group on Biology as a service to marine ornithologists.

INTRODUCTION

In 1986, the Bird Biology Subcommittee of the Scientific Committee on Antarctic Research (SCAR) Working Group on Biology recommended that a list of recent publications on Antarctic and sub-Antarctic seabirds species from 1986 be prepared.

The 1996 list, the eleventh to be produced and published in *Marine Ornithology*, has been compiled by scanning the relevant literature and abstracting services, and by correspondence with members of the subcommittee. Readers are requested to send reprints of their recent relevant literature, including ones missing from this or previous lists, to the author for inclusion in subsequent lists.
