INTRODUCTION	1
THE SURVEY AND ITS OBJECTIVES	5
THE NATURAL ENVIRONMENT	5
Geology	6
Climate	6
Vegetation	7
STUDY AREAS	15
Kau	15
Hamakua	15
Puna	17
Kipukas	18
Kona	20
Mauna Kea	24
Kohala	24
East Maui	24
West Maui	31
Molokai	31
Lanai	32
Kauai	32
FIELD METHODOLOGY	33
Establishment of Transects	33
Observer Training	34
Bird Sampling	37
Vegetation Sampling	40
Insect Observations	45
DATA ANALYSIS	48
Estimation of Effective Area Surveyed	48
Birds per Count Period	52
Range Determination	53
Population Estimates	53
Unrecorded Species	54
Original Ranges	55
Analysis and Interpretation of Habitat Response	55
Habitat variables	55
Community variables	56
Preliminary screening	56
Regression models	57
Habitat response graphs	58
Interpreting habitat response	59
Interspecific Competition	61
Species–Area Relationships	61
Comparison with Earlier Studies	61
Survey Limitations	61
NATIVE SPECIES ACCOUNTS	61
Hawaiian Goose (Nene)	72
Hawaiian Hawk (Io)	78
Hawaiian Rail (Moho)	79

Lesser Golden-Plover (Kolea)	80
Short-eared Owl (Pueo)	81
Hawaiian Crow (Alala)	82
Elepaio	86
Kamao	93
Olomao	96
Omao	96
Puaiohi (Small Kauai Thrush)	101
Kauai Oo (Ooaa)	103
Bishop's Oo	106
Hawaii Oo	106
Kioea	107
Ou	107
Palila	111
Lesser Koa-Finch	114
Greater Koa-Finch	114
Kona Grosbeak	114
Maui Parrotbill	115
Common Amakihi	117
Anianiau	128
Greater Amakihi	128
Hawaiian Akialoa	130
Kauai Akialoa	130
Nukupuu	131
Akiapolaau	133
Kauai Creeper	139
Hawaii Creeper	142
Maui Creeper	146
Molokai Creeper	148
Akepa	149
Ula-ai-hawane	156
Iiwi	157
Hawaii Mamo	163
Black Mamo	167
Crested Honeycreeper (Akohekohe)	168
Apapane	170
Poo-uli	182
INTRODUCED SPECIES ACCOUNTS	183
Black Francolin	183
Erckel's Francolin	199
Gray Francolin	200
Chukar	206
Japanese Quail	211
Kalij Pheasant	211
Red Junglefowl	217
Ring-necked Pheasant	218
Common Peafowl	226
Wild Turkey	226
California Quail	234

Rock Dove	235
Spotted Dove	235
Zebra Dove	247
Mourning Dove	248
Common Barn-Owl	252
Eurasian Skylark	252
Japanese Bush-Warbler	254
White-rumped Shama	260
Melodious Laughing-thrush	261
Red-billed Leiothrix	266
Northern Mockingbird	277
Common Myna	282
Japanese White-eye	287
Northern Cardinal	295
Saffron Finch	307
House Finch	314
Yellow-fronted Canary	317
House Sparrow	317
Red-cheeked Cordonbleu	321
Lavender Waxbill	321
Warbling Silverbill	321
Nutmeg Mannikin	325
COMMUNITY ECOLOGY	330
Species–Area Relationships	330
Richness and Diversity	334
General Patterns of Habitat Response	340
Distributional Anomalies	349
LIMITING FACTORS	351
Habitat Modification	352
Browsers, grazers, and rooters	352
Introduced plants	361
Anthropogenic habitat degradation	362
Predation	363
Disease	364
Interspecific Competition	368
Disasters	371
CONSERVATION	371
History of Human Disturbance	371
Conservation Strategies	373
Extinction Models	380
Island Recommendations	380
Conclusion	384
ACKNOWLEDGMENTS	385
SURVEY PARTICIPANTS AND HABITATS	387
LITERATURE CITED	393
APPENDIX TABLES	406

TABLES

Table 1.	Status and distribution of endemic Hawaiian birds	2
Table 2.	Native tree and shrub genera on Kona, East Maui, and mature dry forest sites ..	11
Table 3.	Hawaiian Forest Bird Survey study areas	37
Table 4.	Number of stations sampled by elevation, habitat, and study area	38
Table 5.	Adjustment factors for the effects of habitat configuration on effective area ...	48
Table 6.	Analysis of variance for the effect of species, observer, and habitat configuration on effective detection distance	51
Table 7.	Effective detection distances for Hawaiian birds	52
Table 8.	Multiplicative factors for effective areas by elevation, habitat, and study area	53
Table 9.	Habitat and area in assumed original range of native birds	54
Table 10.	Summary statistics for native birds in the study areas on Hawaii	62
Table 11.	Summary statistics for native birds in the study areas on Maui, Molokai, Lanai, and Kauai	65
Table 12.	Probability of detecting at least one bird of species unrecorded during the HFBS	69
Table 13.	Density of the Hawaiian Goose (Nene) and Hawaiian Crow (Alala)	73
Table 14.	Regression models for habitat response of the Hawaiian Goose (Nene) and Hawaiian Crow (Alala)	77
Table 15.	Incidental observations of the Hawaiian Hawk (Io)	78
Table 16.	Density of the Elepaio	87
Table 17.	Regression models for habitat response of the Elepaio	93
Table 18.	Density of the Kamao, Olomao, Omao, and Puaiohi	95
Table 19.	Regression models for habitat response of the Kamao, Omao, and Puaiohi ...	97
Table 20.	Density of the Kauai Oo, Ou, Palila, Maui Parrotbill, Anianiau, and Nukupuu ..	105
Table 21.	Regression models for habitat response of the Ou, Palila, Maui Parrotbill, An- ianiau, and Akiapolau	113
Table 22.	Density of the Common Amakihi	126
Table 23.	Regression models for habitat response of the Common Amakihi	127
Table 24.	Density of the Akiapolau and Poo-uli	134
Table 25.	Density of the Kauai Creeper, Hawaii Creeper, and Maui Creeper	139
Table 26.	Regression models for habitat response of the Kauai Creeper, Hawaii Creeper, and Maui Creeper	141
Table 27.	Density of the Akepa and Crested Honeycreeper (Akohekohe)	154
Table 28.	Regression models for habitat response of the Akepa and Crested Honeycreeper (Akohekohe)	155
Table 29.	Density of the Iiwi	158
Table 30.	Regression models for habitat response of the Iiwi	167
Table 31.	Density of the Apapane	171
Table 32.	Regression models for habitat response of the Apapane	181
Table 33.	Summary statistics for introduced birds in the study areas on Hawaii	184
Table 34.	Summary statistics for introduced birds in the study areas on Maui, Molokai, Lanai, and Kauai	191
Table 35.	Density of the Black Francolin and Gray Francolin	196
Table 36.	Regression models for habitat response of the Black Francolin, Erckel's Fran- colin, and Gray Francolin	199
Table 37.	Density of the Erckel's Francolin	200
Table 38.	Density of the Chukar and Red Junglefowl	206
Table 39.	Regression models for habitat response of the Chukar, Kalij Pheasant, and Red Junglefowl	211
Table 40.	Density of the Japanese Quail and Kalij Pheasant	212
Table 41.	Density of the Ring-necked Pheasant	219
Table 42.	Regression models for habitat response of the Ring-necked Pheasant and Com- mon Peafowl	220
Table 43.	Density of the Common Peafowl and Wild Turkey	227
Table 44.	Regression models for habitat response of the Wild Turkey and California Quail	230

Table 45.	Density of the California Quail	235
Table 46.	Density of the Spotted Dove	246
Table 47.	Regression models for habitat response of the Spotted Dove and Zebra Dove	247
Table 48.	Density of the Zebra Dove and Mourning Dove	248
Table 49.	Density of the Eurasian Skylark	255
Table 50.	Regression models for habitat response of the Eurasian Skylark, Japanese Bush-Warbler, and Northern Mockingbird	260
Table 51.	Density of the Japanese Bush-Warbler, White-rumped Shama, and Northern Mockingbird	261
Table 52.	Density of the Melodious Laughing-thrush	262
Table 53.	Regression models for habitat response of the Melodious Laughing-thrush ...	269
Table 54.	Density of the Red-billed Leiothrix	270
Table 55.	Regression models for habitat response of the Red-billed Leiothrix	277
Table 56.	Density of the Common Myna	281
Table 57.	Regression models for habitat response of the Common Myna, Saffron Finch, and Yellow-fronted Canary	287
Table 58.	Density of the Japanese White-eye	288
Table 59.	Regression models for habitat response of the Japanese White-eye	296
Table 60.	Density of the Northern Cardinal	305
Table 61.	Regression models for habitat response of the Northern Cardinal	306
Table 62.	Density of the Saffron Finch, Yellow-fronted Canary, Red-cheeked Cordonbleu, Lavender Waxbill, and Warbling Silverbill	307
Table 63.	Density of the House Finch	308
Table 64.	Regression models for habitat response of the House Finch	319
Table 65.	Regression models for habitat response of the Warbling Silverbill and Nutmeg Mannikin	323
Table 66.	Density of the Nutmeg Mannikin	326
Table 67.	Regression models for habitat response of native species richness	336
Table 68.	Regression models for habitat response of introduced species richness	337
Table 69.	Regression models for habitat response of bird species diversity (Simpson's Index)	338
Table 70.	Relative importance of habitat variables	341
Table 71.	Elevational and lateral distributional anomalies	349
Table 72.	Response of native birds to mosquito presence	367
Table 73.	Distribution of negative and positive partial correlations across study areas by native or introduced status of the members of each species pair	369
Table 74.	Percentages of negative partial correlations among primary and secondary potential competitors in native/introduced species pairs	370
Table 75.	Status and management recommendations for native Hawaiian forest birds ..	374
