

Christmas Bird Counts 2008–2009

By Ned Keller

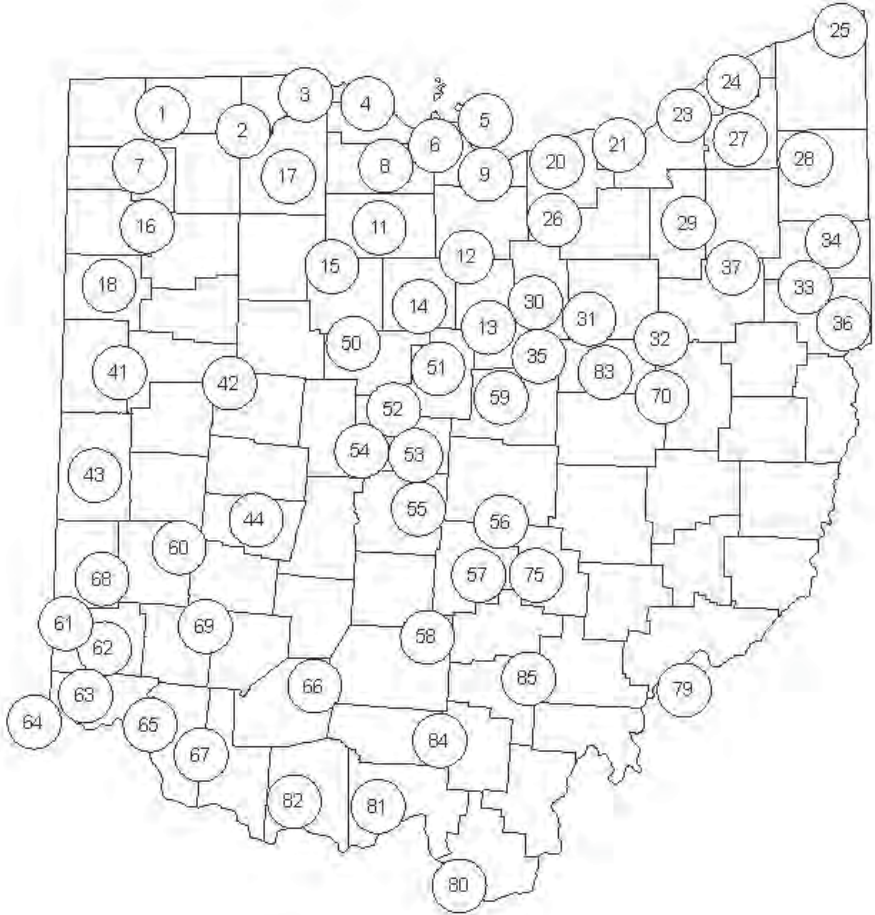

*8098 Turcotte Lane
North Bend, OH 45052
keller@one.net*

There were only two changes in the count circles since last year: the Cadiz count was not completed, and the Carey count was. Carey, along with Clark County and Gypsum, was not reported to the National Audubon Society. Although the number of circles was the same as last year—67—our species total rose from 153 to 161, plus four additional species during count week. Toledo once again had the high count, with 96 species, followed by Cincinnati with 92 and Wooster with 90.

The most extraordinary appearances on this year's counts were 281 White-winged Crossbills in 11 circles, including 74 at Grand Rapids–Waterville. Having one or two is more typical, and we miss them entirely in many years. Red Crossbills did not mirror the White-winged invasion, as only a single bird appeared, also at Grand Rapids–Waterville. It was also an invasion year for Pine Siskins, with 3,220 found on 51 counts.

The individual star of the year must have been the photographed Painted Bunting at O'Shaughnessy Reservoir. Other rarities included a Black-headed Gull at Cleveland, a Parasitic Jaeger at Lake Erie Islands, 13 Eurasian Collared-Doves at Grand Lake St. Marys, and a Harris's Sparrow at Cincinnati. Also noteworthy were 11 Brant at Beaver Creek, a Blue-winged Teal at Lake Erie Islands, a Broad-winged Hawk at Beaver Creek, four Pomarine Jaegers at Lake Erie Islands, a Common Tern at Toledo, a Marsh Wren at Wooster, a Blue-gray Gnatcatcher at Lake Erie Islands, an Orange-crowned Warbler at Cincinnati, a Palm Warbler at Ragersville, a Lincoln's Sparrow at Toledo, a Dickcissel at Columbus, and a Bobolink at Toledo. Notable count-week birds included a Red-throated Loon at Caesar Creek/Spring Valley, a Purple Sandpiper at Lake Erie Islands, a Rufous Hummingbird at Columbus, and a White-eyed Vireo at Cuyahoga Falls. A Whooper Swan at Trumbull County was presumably an escapee.

But these are just the highlights. You are sure to find additional interesting trends and records in the accompanying charts. As always, the results are reproduced here as reported to us (except for the errors that I may have introduced); I have made no effort to verify numbers or rarities.
