NEEDED:

*The Editors of EBBA NEWS are trying to locate a dealer where our members can obtain Mosquito Head Nets. These nets come in various models. To be suitable for banding purposes, they have to be the "drawstring type" (preferably elastic) and they should have rigid circular bands (at least one) to hold the net away from the face in normal use. We have heretofore used either French or American Army Surplus headnets (Model M1944, USArmy) but apparently the supply has become exceedingly scarce. If anyone knows where the right headnets can be obtained - PLEASE CONTACT THE EDITOR. Thanks.*
