

FOURTH SUPPLEMENT TO THE AMERICAN  
ORNITHOLOGISTS' UNION CHECK-LIST OF  
NORTH AMERICAN BIRDS.

BY ORDER of the Council of the American Ornithologists' Union the Committee on Classification and Nomenclature of North American Birds has prepared the following report on the species, subspecies, and changes of nomenclature proposed during the year ending November, 1891, forming the Fourth Supplement to the American Ornithologists' Union Check-List.

The numbers at the left of the scientific names facilitate collation with the Check-List. The interpolated species and subspecies are numbered in accordance with the provisions made therefor in the code of Nomenclature (see page 14, last paragraph).

[B—, C—, R—, C—.]

HAB. Eastern Mexico, north to Brownsville, Texas. (Cf. ALLEN, Auk, VIII, 1891, 316.)

## II. CHANGES OF NOMENCLATURE.

567.1. **Junco carolinensis** BREWST. This becomes  
567 e. **Junco hyemalis carolinensis** BREWST. (Cf. DWIGHT, Auk, VIII, July, 1891, 290, and BREWSTER, Auk, III, Jan. 1886, 108.)

## III. FORMS CONSIDERED AS NOT ENTITLED TO RECOGNITION.

*Ictinia plumbea* (VIEILL.).—The record of the occurrence of this species in Florida proves to have been founded on a misidentification of an immature example of *Ictinia mississippiensis*. (Cf. CAHOON, Orn. and Oöl. XV, March, 1890, 35, and CHAPMAN, *ibid.* XVI, March, 1891, 44.)

*Ammodramus caudacutus becki* RIDGW. Proc. U. S. Nat. Mus. XIV, 1891, 483.

The type and single known specimen proves to be not distinguishable from *A. c. nelsoni*.

*Pipilo maculatus magnirostris* BREWST., Auk, VIII, April, 1891, 146.

Rejected on the ground of the slight and inconstant nature of the differences supposed to distinguish it from *P. m. megalonyx*.

*Sitta carolinensis lagunæ* BREWST. Auk, VIII, April, 1891, 149.

Not satisfactorily distinguishable from *S. c. aculeata*, the alleged characters proving slight and inconstant.

*Turdus sequoiensis* BELDING, Proc. Cala. Acad. Sci. 2d ser. II. Oct. 1889, 79.

Considered as not distinguishable from *T. aonalaschkæ auduboni*.

#### IV. PROPOSED CHANGES IN NOMENCLATURE REJECTED.

*Hirundo* LINN. vs. *Chelidon* FORST. (Cf. REICHENOW, J. f. O. 1889, 187.)

An examination of SHÄFFER'S work (*Elementa Ornithologica*) as regards its scope, character, and purpose, including his treatment of *Hirundo*, fails to substantiate the claim that *H. rustica* must be considered the type of *Hirundo*, and that consequently *Chelidon* becomes a synonym of *Hirundo*. Therefore the former action of this Committee on this case is now reaffirmed.

#### V. ACTION DEFERRED FROM LACK OF MATERIAL.

Final action on the following was deferred, owing to the absence of sufficient material to enable the Committee to arrive at satisfactory decisions.

*Megascops asio aikeni* BREWST. Auk, VIII, April, 1891, 139.

*Megascops asio macfarlanei* BREWST. Auk, VIII, April, 1891, 140.

*Megascops asio saturatus* BREWST. Auk, VIII, April, 1891, 141.

*Vireo vicinior californicus* STEPHENS, Auk, VII, April, 1890, 159.

The following proposed changes of nomenclature were laid on the table, to be considered at some subsequent meeting of the Committee, in connection with other cases requiring revision.

216 a. *Porzana jamaicensis coturniculus* BAIRD vs. *Porzana coturniculus* RIDGW. (Cf. RIDGWAY, Pr. U. S. Nat Mus. XIII, 1890, 309.

431.1 *Trochilus floresii* GOULD vs. *T. rubromitratus* RIDGW. Auk, VIII, Jan. 1891, 114.

The question of the generic or subgeneric rank of the genus *Ardetta* GRAY.

ERRATA.—In the Third Supplement to the Check-List (Auk, VIII, Jan. 1891) numbers 582h and 582i (p. 86) should stand respectively as 581h and 581i.
