

Primvs [Secvndvs]. | — | Lipsiae, | ex bibliopolio Io. Godofr. Mülleri-

preface, 1 l., pp. 1-20, 1 l. (title of Fasc. II), 21-45, pll. col'd 1-vi, vii-xii.

The work treats extensively of the following birds: *Cotinga rubra*,

graph of, in Linnæan style, pp. 28-36, treating of: *Trogon hæmorrhoida-*
lis, *T. curucui*, p. 33 (pl. 9); *T. strigilatus*, *T. ferrugineus*, p. 34; *T.*

pema, p. 39, pl. 11. *P. leucolophos*, p. 43, pl. 12.

The work consists of two fasciculi, separately full-titled and probably
issued apart; and the title of Fascicvlvs Secvndvs is literally different
from that of Fascicvlvs Primvs. But both bear the same date, 1786, and
are bound as one volume in the copy examined in the library of the
Zoölogical Society. The pagination and numeration of the plates are con-
tinuous; so that it is not necessary to cite the work by fasciculi. The
first 20 pages and 6 plates belong in Fasc. I., the rest in Fasc. II.—ELLIOTT
COUES, *Washington, D. C.*

Mandt's Inaugural Dissertation.—This is a scarce tract, which I have
never seen cited in full, and which is seldom so cited as to give any satis-
factory idea of what it may be. The following is the title:

in | itinere Groenlandico | factae. | — | Dissertatio | In auguralis | quam
| consensu et auctoritate | gratiosi medicorum ordinis | in | Universitate

Correction.—In the Auk, Vol. XIII, No. 2, for April, page 176, under
'Abnormal Plumage in a Pine Grosbeak,' "its width having decreased .20
of an inch" should read "its width having decreased to .20 of an inch."
On page 178, the paragraph on the Winter Wren, under 'Three Winter
Notes from Longwood, Massachusetts,' "and on the 25th shot, I think,
the same bird" should read "and on the 25th of December shot, I think
the same bird."—REGINALD HEBER HOWE, JR., *Longwood, Mass.*
