# THE BIRDS OF CELEBES

## AND THE NEIGHBOURING ISLANDS.

Two Volumes, comprising forty-two plates carefully hand coloured (figures of seventy-three species), three plain plates (tails of four species), and seven coloured maps [three maps: Geographical Distribution of *Loriculus*, *Cacatua*, *Bucerotidæ* in the Indian Archipelago; one map of Celebes; one map of Celebes and neighboring islands; two Meteorological maps (winds and rains of the Indian Archipelago)], with letterpress of more than 1100 pages. In Royal Quarto.

PRICE, 58 DOLLARS.

What do you think of

## BIRDS?

THIS IS WHAT SOME PEOPLE THINK.

You have certainly hit upon a method of reproducing natural colors with remarkable fidelity to nature. DR. ELLIOT COUES.

Your magazine has certainly had a phenomenal success, and it is entirely worthy of its cordial reception.

J. A. ALLEN, Editor, 'The Auk'.

This is one of the most beautiful and interesting publications yet attempted in this direction. It has other attractions in addition to its beauty, and it must win its way to popular favor.

CHAS. R. SKINNER, New York State Superintendent of Schools.

Most of these pictures are astonishingly good. I like them so well that I shall put them up on the walls of my rustic retreat 'Slab Sides'.

JOHN BURROWS.

When one considers the low price at which you sell BIRDS, the number and excellence of the plates is surprising, and I trust that your efforts to popularize the study of ornithology may meet with the success it so well deserves.

F. M. CHAPMAN, Associate Editor, 'The Auk.'

Experts agree that the success of the delicate coloring in the Passenger Pigeon (January, 1898) is the greatest triumph the art of printing has attained.
