

A number of families more or less currently recognized are suppressed, and we are left in doubt as to the author's allocation of them; in other cases families that actually inosculate are widely separated. Of course no lineal arrangement can be made to express the affinities of groups that have multiple alliances. On the whole the arrangement here presented appears to be about as satisfactory as any we have seen, it differing not very widely from several of the later systems.—J. A. A.

Clark on New Birds from St. Vincent, W. I.—In working up the birds collected by himself on the island of St. Vincent during 1903-04 Mr. Clark has found four new forms that he considers as entitled to recognition. These are *Euphonia flavifrons viscivora*,¹ inhabiting Grenada, St. Lucia, and Martinique, as well as St. Vincent; *Holoquiscalus dispar*,² *Buteo antillarum*, allied to *Buteo platypterus*, but smaller and more rufous; and *Urubitinga anthracina cancrivora*. We await with interest the publication of his report on the results of his extended ornithological explorations in the Lesser Antilles.—J. A. A.

Mearns on New Philippine Birds.—This preliminary paper on Dr. Mearns's ornithological work in the Philippine Islands during the years 1903-04 contains descriptions of eight new species,³ with notes on seven others new to the islands. The name *Carpophaga* for a genus of Fruit Pigeons is shown to be preoccupied and is replaced by *Muscadivora*, nom. nov. Dr. Mearns, aided by other members of the Philippine Scientific Association, collected over 1000 birds in the military department of Mindinao during 1903 and 1904, comprising 216 species. The more extended paper that may be expected to appear later on this collection cannot fail to increase greatly our knowledge of the birds of this particular district.—J. A. A.

Shelley's 'Birds of Africa,' Vol. IV, Pt. I.—The first part of Volume IV of Shelley's 'Birds of Africa,'⁴ just to hand, includes the first two sub-

¹ Description of a New *Euphonia* from the Southern West Indies. By Austin H. Clark. Proc. Biol. Soc. Washington, Vol. XVIII, pp. 19-22, Feb. 2, 1905.

² Preliminary Descriptions of Three New Birds from St. Vincent, West Indies. By Austin H. Clark. *Ibid.*, pp. 61-64, Feb. 21, 1905.

³ Descriptions of Eight New Philippine Birds, with Notes on other Species new to the Islands. By Edgar A. Mearns, Major and Surgeon, U. S. Army. Proc. Biol. Soc. Washington, Vol. XVIII, pp. 83-90, Feb. 21, 1905.

⁴ The | Birds of Africa, | comprising all the species which occur | in the | Ethiopian Region. | By | G. E. Shelley, F. Z. S., F. R. G. S., &c. | (late Grenadier Guards), | author of "A Handbook to the Birds of Egypt," | "A Monograph of the Sun-Birds," etc. | — | Volume IV. | Part I. | — | London: | published for the Author by | R. H. Porter, 7, Princes Street, Cavendish Square, W. | 1905.—Roy, 8vo, pp. viii + 287, pll. col. xxix-xxxv. Price 31s. 6d. net.
