

INDEX TO VOLUME 84

Compiled by Marion Anne Jenkinson

This index is primarily one to new information. Previously published information, which has been referred to in this volume, has not been indexed unless extensive comparisons or reinterpretations were involved. Also not indexed are the various species of birds mentioned in the Report of the Committee on Bird Protection (pp. 412-420). For some species, especially ones not in the A.O.U. Check-list area, scientific names only have been entered, and in some instances entries under scientific names are more extensive than those under vernacular names. New generic, specific, and subspecific names are printed in **boldface** type.

- Accipiter
 cooperii, 384
 gentilis, 183-191
 striatus, 431
 tachiro, 408
Accipitridae, 215
Adamastor cinereus, 366-378
Aechmophorus occidentalis, 384
Aegolius acadicus, 425
Agapornis fischeri, 594
Age groups, see Sex and—
Agelaius phoeniceus, 118-120, 380-385,
 560-570
Aix sponsa, 384
Alabama, 279
Alaska, 277-278
Albatross,
 Black-browed, 366-378
 Gray-headed, 366-378
 Laysan, 426-430
 Light-mantled Sooty, 366-378
 Royal, 366-378
 Wandering, 366-378
Alberta, 220-244
Aldrich, John W., review by, 434-435
Alectoris chukar, 27
Amazilia verticalis, 37-46
American Ornithologists' Union,
 Brewster Memorial Award, 245-246
 Committees, 256-257
 Membership List, Suppl.
 Officers and officials, 255-256
 Proceedings of the Eighty-fourth Stated
 Meeting, 245-259
 Report of the Committee on Bird
 Protection, 412-420
 Treasurer's report, 257-259
Anas
 acuta, 384
 platyrhynchos, 212
Anatidae, 384-387
Anatomy (see also Anomalies, Fossils,
 and Embryology),
 anal glands (many spp.), 379-389
 arteries (Heliornithidae), 431-432
 gonads (Hesperiphona vespertina), 270-
 271
 postcranial skeleton (Cochlearius and
 various ardeids), 529-533
 salt glands (Telmatodytes palustris),
 589-591
Anatomy and embryology, recent litera-
 ture on, 147, 288, 444, 616
