

1984 ORNITHOLOGICAL MONOGRAPHS

No. 32 **The Marine Ecology of Birds in the Ross Sea, Antarctica**, by David G. Ainley, Edmund F. O'Connor, and Robert J. Boekelheide. x + 97 pp., 42 text figures. 1984. Price \$9.00 (\$8.00 to AOU members).

No. 33 **Sexual Selection, Lek and Arena Behavior, and Sexual Size Dimorphism in Birds**, by Robert B. Payne. viii + 52 pp., 12 text figures. 1984. Price \$8.00 (\$6.50 to AOU members).

No. 34 **Pattern, Mechanism, and Adaptive Significance of Territoriality in Herring Gulls (*Larus argentatus*)**, by Joanna Burger. xii + 92 pp., 30 text figures. 1984. Price \$9.00 (\$7.00 to AOU members).

Like all other AOU publications, *Ornithological Monographs* are shipped prepaid. Make checks payable to "The American Ornithologists' Union." For the convenience of those who wish to maintain complete sets of *Ornithological Monographs* and to receive new numbers immediately upon issue, standing orders are encouraged.

Order from: **Frank R. Moore, Assistant to the Treasurer AOU, Department of Biology, University of Southern Mississippi, Southern Station Box 5018, Hattiesburg, Mississippi 39406.**

STUDIES IN AVIAN BIOLOGY

Devoted to Papers of Unusual Length. Supercedes Pacific Coast Avifauna, Established in 1900:

- STATUS AND DISTRIBUTION OF ALASKA BIRDS. By BRINA KESSEL and DANIEL D. GIBSON. 100 pp. SAB No. 1, November 1978 \$9.00
- SHOREBIRDS IN MARINE ENVIRONMENTS. Edited By FRANK A. PITELKA. 261 pp. SAB No. 2, June 1979 OUT OF PRINT
- BIRD COMMUNITY DYNAMICS IN A PONDEROSA PINE FOREST. By ROBERT C. SZARO and RUSSELL P. BALDA. 66 pp. SAB No. 3, October 1979 \$6.50
- THE AVIFAUNA OF THE SOUTH FARALLON ISLANDS, CALIFORNIA. By DAVID F. DESANTE and DAVID G. AINLEY. 104 pp. SAB No. 4, April 1980 \$10.00
- ANNUAL VARIATION OF DAILY ENERGY EXPENDITURE BY THE BLACK-BILLED MAGPIE: A STUDY OF THERMAL AND BEHAVIORAL ENERGETICS. By JOHN N. MUGAAS and JAMES R. KING. 78 pp. SAB No. 5, May 1981 .. \$8.00
- ESTIMATING NUMBERS OF TERRESTRIAL BIRDS. Edited By C. JOHN RALPH and J. MICHAEL SCOTT. 630 pp. SAB No. 6, October 1981 OUT OF PRINT

NEW TITLES

- POPULATION ECOLOGY OF THE DIPPER (*Cinclus mexicanus*) IN THE FRONT RANGE OF COLORADO. By FRANK E. PRICE and CARL E. BOCK. 84 pp. SAB No. 7, November 1983 \$9.00
- TROPICAL SEABIRD BIOLOGY. Proceedings of an International Symposium of the Pacific Seabird Group. Edited by RALPH W. SCHREIBER. 114 pp. SAB No. 8, December 1983 \$12.00

THE AUK

A Quarterly Journal of Ornithology

PUBLISHED BY THE AMERICAN ORNITHOLOGISTS' UNION

Editor: JOHN A. WIENS, Department of Biology, University of New Mexico, Albuquerque, New Mexico 87131

Editor-Elect: ALAN H. BRUSH, Biological Sciences Group, University of Connecticut, Storrs, Connecticut 06268.

Copy Editor: JEAN FERNER

Associate Editors: HERBERT W. KALE, II (Periodical Literature), WILLIAM E. SOUTHERN (Book Reviews)

THE AUK welcomes original reports dealing with the biology of birds, emphasizing the documentation, analysis, and interpretation of laboratory and field studies, theoretical or methodological developments, or reviews of existing information or ideas. Contributions are welcomed from throughout the world, but must be written in English.

SUGGESTIONS TO CONTRIBUTORS. Submit the typewritten original and two copies of the text, tables, and all other material to the Editor-Elect. Three copies of illustrations should be submitted. *All typewritten material must be double-spaced on one side of numbered 8½ × 11 inch (21½ × 28 cm) good quality bond paper, with at least 1 inch (2½ cm) margins.* Originals typed on erasable, light weight, or mimeo bond will not be considered, but copies may be clear reproductions. Number pages through the Literature Cited. Avoid footnotes. The style of manuscripts should conform to general usage in recent issues. A cover page should contain the full title, a shortened version of the title (not to exceed 35 characters in length) for use as a running head, and your address at the time the research was conducted. Your present address, if different, should be given at the bottom of the first text page. The cover page should include the name and full address of the individual to whom proof is to be sent.

Each article should be preceded by an Abstract not exceeding 5% of the length of the paper. The Abstract should recapitulate the findings of the paper, not describe the work done. Acknowledgments should follow the text and precede the Literature Cited. Scientific and English names of birds always should be given where first mentioned in the text, and should follow the A.O.U. Check-list of North American Birds and supplements or the appropriate equivalent unless departures are explained and defended. SI metric units should be used in all measurements. In general, abbreviations of statistical terms and mensural units should conform with the Council of Biology Editors (CBE) Style Manual, 4th ed. Use the 24-hour clock (0800 and 2030) and "continental" dating (1 July 1971).

Tables, which must not duplicate material in either the text or illustrations, are typewritten (**double-spaced throughout!**) separately from the text. Each table should contain a short but complete heading, and must not contain vertical rulings. *Illustrations* (including labels of coordinates) should be on 8½ × 11 inch (21½ × 28 cm) sheets, and must be mailed flat. The name of the author and the figure number should be penciled on the *back* of each figure. Legends should be typed consecutively (double-spaced) on a separate page. Drawings should be drafted with undiluted india ink, and be large enough to permit ½ to ⅓ reduction to the size that they will appear in print. Graphs may be drafted on coordinate paper ruled with light *blue* lines; do *not* use coordinate paper ruled with *green* lines. Use mechanical lettering, pressure transfer letters, or calligraphy; typewritten lettering is not acceptable. Lettering should be large enough to be easily readable after 50% reduction of the figure, but not overly large. Lettering style should be uniform among all figures for a manuscript, as should the size of lettering following reduction. Photographs should be glossy prints of good contrast and sharpness, and should be approximately the same size as they will appear in print. Letters and arrows on photographs are best applied by pressure-sensitive materials. The Auk is published in a double-column format; give careful attention to designing your tables and illustrations accordingly.

Literature citations for **all** manuscripts are listed (double-spaced!) in a Literature Cited section following the text and Acknowledgments. Text citations should include author and year (e.g. Darwin 1858), or, if more than two authors are involved, the first author and year (Jones et al. 1947). If critical matter is cited or quoted directly from longer works, indicate the pertinent pages (e.g. MacArthur 1972: 204). Citations of two or more works on the same topic should be cited in chronological order (e.g. Meanley 1971, Dyer 1975). For abbreviations and forms of titles of serial publications, follow the BIOSIS List of Serials. Consult recent issues of The Auk and the CBE Style Manual for additional details.

A more detailed set of instructions for contributors appeared in the Auk, Vol. 99, No. 1 (January 1982), copies of which are available from the Editor.
