 ERRATUM

In "Renesting by American Woodcocks (*Scolopax minor*) in Maine" by Daniel G. McAuley, Jerry R. Longcore, and Greg F. Sepik (1990, *Auk* 107: 407-410), the range of distance moved by females that abandoned nests or had nests destroyed by predators (p. 408) should read: "range = 1.0-15.5" and the values in the "Distance moved (km)" column in Table 2 (p. 409) should read down the column: "1.01, 11.34, 1.22, 4.17, 15.54, 0.65, 0.36, 1.14, 0.88, 0.24, 0.80, 0.16." Corrected values are in boldface type.
