---

Categories of Giving  
(as established in 1989)

Sponsor (\$1,000), Patron (\$3,000), Benefactor (\$10,000)  
Guarantor (\$25,000)

The names of major donors are listed in perpetuity in the rolls of the  
American Ornithologists' Union.

The needs of the American Ornithologists' Union have changed since its  
founding over 100 years ago, and they will continue to change. Thus the  
A. O. U. strongly recommends that gifts to the Union be unrestricted.

## COMPUTER SOFTWARE FOR ORNITHOLOGISTS

**BirdBase 2** has been described in an Auk (v. 108, p. 456) review as "a sophisticated database management program specifically tailored for anyone who works with lists of birds.....remarkably fast.....a great program." With all the AOU-ABA birds of North America and Hawaii, this IBM-compatible software sells for US\$59.95 plus US\$3.00 shipping. With every bird in Dr. James Clements' Birds of the World (4th Ed.) also included, it costs US\$99.95 plus US\$5.00 shipping.

**BirdLexi** contains an MS-DOS ASCII file listing alphabetically every word in the scientific species, genus, family, and order names of Clements' nearly 9700 birds, a second file with words from his common names not in spelling checkers, and a third with words from AOU-ABA bird names not in the other files. Any of these can be used to add their words to most IBM or Macintosh word processor spelling checkers. The price is US\$49.95 plus US\$3.00 shipping.

MasterCard, Visa, US dollar checks, and major organization purchase orders are accepted. Double shipping charges for overseas orders. Add 8% tax for CA orders. Specify the size of an IBM compatible's drive A or, for a Macintosh, of the drive that is IBM compatible.

**SANTA BARBARA SOFTWARE PRODUCTS, INC.**

1400 Dover Road; Santa Barbara CA 93103 USA; Phone/Fax 805 963 4886

## POSTDOCTORAL FELLOWSHIP AT THE AMERICAN MUSEUM OF NATURAL HISTORY

---

The Frank M. Chapman Memorial Fund Committee welcomes applications for the Postdoctoral Fellowship Program in the areas of evolutionary and systematic ornithology. The Fellowship is usually for one year, but applicants may apply for two years, with a review of performance after the first year.

Deadline for applications is 15 January.

For application form and brochure, please write to:

**Frank M. Chapman Memorial Fund**

Department of Ornithology / American Museum of Natural History  
Central Park West at 79th Street New York, New York 10024-5192, U.S.A.

ORNITHOLOGICAL MONOGRAPHS 45 & 46

DESCRIPTIONS OF THIRTY-TWO NEW SPECIES OF BIRDS  
FROM THE HAWAIIAN ISLANDS

Part I. Non-Passeriformes

by

STORRS L. OLSON and HELEN F. JAMES

Part II. Passeriformes

by

HELEN F. JAMES AND STORRS L. OLSON

Bound as one volume - 176 pp  
\$25.00 (\$22.50 to AOU Members)  
Postage \$2.00 N. Am., \$4.00 all other countries  
MasterCard and VISA accepted

*A collection of timely studies . . .*  
**CURRENT ORNITHOLOGY**

edited by **Dennis M. Power**

*Current Ornithology* presents timely reviews, overviews, and essays on topics of current interest in avian biology. Covering all facets of biology pertinent to ornithology, the series is designed to give the reader understanding and insight into new developments in this fascinating field. Contributions are profusely illustrated and are accompanied by extensive bibliographies.

**From reviews of earlier volumes:**

*"Current Ornithology . . . is an outstanding collection. . . . Buy it, and be ready to shell out more for subsequent numbers in the series."*

—*The Auk*

*" . . . these chapters are written by the established authorities in the respective fields. . . . Serious ornithologists should have this book . . . and probably subsequent volumes."*

—*The Wilson Bulletin*

**New!**

**Volume 9**

International contributors examine a broad range of current research, including the causes of extinction of the passenger pigeon, population regulation and foraging patterns in seabirds, nest predation and investigation disturbance, and song classification in warblers.

0-306-43990-5/233 pp. + index/ill./1992/\$69.50  
(\$83.40 outside US & Canada)

**Volume 8**

Here, leading experts in the field provide new information on avian studies in New Zealand and the southern Pacific Ocean. They discuss a variety of timely issues, including avian radioecology, enemy recognition and nest parasitism, and the relation between showy plumage and blood parasites using the New Guinea avifauna.

Double Wall Construction

Pest-Proof and Air Tight Seal

Fumigant Compartment

- Double Wall Construction
- Pest-Proof and Air Tight Seal
  - Double Panel Door
  - Lift-Off Safe Type Hinge
  - Fumigant Compartment
    - 3-Point Locking Mechanism
    - Front and Back Air Tight Seals
    - Specimen Trays of Aluminum and Masonite. Lightweight, sturdy and easy to handle.

Skin Case #201 (illustrated)  
 Holds large trays for larger specimens.

Skin Case # 202 (not illustrated)  
 Divided for half-size trays for smaller specimens.

A Quarterly Journal of Ornithology  
PUBLISHED BY THE AMERICAN ORNITHOLOGISTS' UNION

*Editor:* GARY D. SCHNELL, *The Auk*, Department of Zoology, Sutton Hall, 625 Elm Avenue, University of Oklahoma, Norman, Oklahoma 73019, USA. Telephone (405) 325-2784. FAX (405) 325-7504.

*Managing Editor:* TIMOTHY C. LAMEY.

*Associate Editors:* JOHN L. TRAPP (Recent Ornithological Literature) and BRUCE M. BEEHLER (Book Reviews).

*The Auk* welcomes original reports on the biology of birds. Appropriate topics include the documentation, analysis, and interpretation of laboratory and field studies, theoretical or methodological developments, and reviews of information or ideas. Contributions written in English are encouraged from throughout the world.

*Manuscript preparation.*—Submit three copies of each manuscript, complete with tables, figure captions, and figures (retain original figures). **Double-space all written material** (including tables and figure legends) on standard-sized stationery sheets. Number pages through the Literature Cited. Do not hyphenate words at the ends of typewritten lines. Type tables separately from the text; type figure captions consecutively on a separate page. The manuscript should conform to general usage in recent issues (note stylistic changes incorporated in January 1992). The title page (numbered) should contain full title, and authors' names and addresses at the time of the research. The present address, if different, should be indicated as a footnote. The title page also includes running heads (<36 characters), and the name and mailing address of the individual to whom proofs should be sent.

An Abstract (<5% of paper length) should precede each regular article. It should summarize important premises, recapitulate findings, and give conclusions. Text citations should include the author and year (e.g. Darwin 1858, Wolter and Hunter 1968, Mayr et al. 1989); multiple citations should be arranged chronologically. Citations of specific page numbers, tables, or figures may be appropriate in certain situations (e.g. Diamond 1991:465–466, Zink et al. 1991:fig. 1, Dawson and Mannan 1991:table 6). Acknowledgments precede the Literature Cited. Title abbreviations of serial publications follow the International Serial Data System (ISDS) as indicated in *Serial Sources for the BIOSIS Previews Database* (1991, BIOSIS, Philadelphia), which is provided with *Biological Abstracts*. Scientific and English names of birds are given at first mention and follow the AOU's *Check-list of North American Birds* (1983) and its supplements. Measurements (and their designated abbreviations) are to be in SI units (see B. N. Taylor [Ed.], 1991, *The international system of units [SI]*, NIST Spec. Publ. 330, National Institute of Standards and Technology, U.S. Dep. Commerce, U.S. Government Printing Office, Washington, D.C.). In general, abbreviations of statistical terms conform to the fifth edition of the *CBE CBE Style Manual* (1983, available from CBE, 9650 Rockville Pike, Bethesda, Maryland 20814). Use continental dating (e.g. 29 September 1990), the 24-hour clock (e.g. 0800 and 2035), and standard time (not daylight savings time).

Tables and figures should not duplicate material in the text or in each other. Each table requires a short heading; give particular attention to the form of table boxheads and do not include vertical rules. Illustrations should be prepared for one- or two-column width, keeping in mind the size of the *Auk*. The style of figures should be uniform. Helvetica or a similar sans serif style of type is recommended; typical typewriter lettering is unacceptable on figures.

After a paper has been accepted for publication, original figures and the original plus one copy of the manuscript (revised if necessary) are to be sent to the Editor. Illustrations in a large format are not desirable, since they are easily damaged or misplaced; if possible, original illustrations or high-quality reproductions should be no larger than standard-sized stationery sheets. On the back, each original illustration should have the figure number, author name, journal name, and an indication of the top of the figure. Drawings should be on good-quality paper and allow for about 20% reduction. Photographs should be glossy prints of high quality and approximately of the size they are to appear in print. Color figures will be considered as figure plates or a frontispiece.

*Proofs, reprints, and charges.*—Authors will receive page proofs for approval, along with the original typescript. Both must be returned within 48 h to the editorial office to avoid publication delays. A reprint order form will be sent with proofs; reprints are billed following the printer's current cost schedule. Because changes in proofs are expensive, authors should not expect to make major modifications in their work at this stage. Excessive alterations (i.e. more than about one line reset per two printed pages) in proofs will be charged to the author at the rate of \$3.00 per reset line. Authors should keep the Editor informed of address changes, so proofs will not be delayed. The AOU requests that authors, if possible, bear part or all of the cost of publishing their papers when grant, institutional, or personal funds are available for the purpose. Current costs per printed page are \$75; a minimum contribution of \$38 per page is recommended, but the AOU is pleased to receive any payment considered appropriate. Authors who do not have access to publication funds may request a waiver of this payment.

*Books for review.*—Forward books for review directly to: Bruce M. Beehler, Associate Editor for Book Reviews, *The Auk*, NHB Room 336, Smithsonian Institution, Washington, D.C. 20560, USA.
