

ASTM PRESENTS

**THE THIRD SYMPOSIUM ON
ENVIRONMENTAL TOXICOLOGY
AND RISK ASSESSMENT**

Sponsored by Committee E47 on
Biological Effects and Environmental Fate

April 26-29, 1993
Hyatt Regency Atlanta — Atlanta, Georgia

Featuring:

**THE EXXON VALDEZ:
ENVIRONMENTAL RESPONSE
AND ASSESSMENT**

The theme of the symposium will be critical issues in environmental toxicology and risk assessment. The plenary session will focus on the Exxon Valdez oil spill as a case study. Of the 15 symposium sessions, 6 will review the unique research efforts undertaken in the wake of the incident and will include more than 25 previously unreleased studies.

Lovebirds, Cockatiels, Budgerigars: BEHAVIOR & EVOLUTION

by J. Lee Kavanau, UCLA

- ▶▶...highly informative volume...actually several books under one cover....[the author has] enormous experience with the raising of these birds....presenting a great deal of interesting information, much of it new. Prof. Ernst Mayr, Harvard Univ.
- ▶▶...unique, exhaustive laboratory studies of..behavior....insightful and remarkably comprehensive scenario of..origin & evolution of birds &..roots of their behaviors...must reading for all interested in avian behavior & reproduction....wealth of information & concepts that will be of interest to all evolutionists. Prof. E. C. Olson, UCLA
- ▶▶...enormous amount of information...very important contribution to..study of behavior of parrot birds, about which so little is known... Prof. K. Immelmann, Univ. Bielefeld
- ▶▶...monumental in..scope...much fascinating reading...many intriguing subjects....enormous project....excellent reference for..experimental behavior or evolutionary science....looking forward to..in-depth study &..to apply [the author's] concepts to...aviculture and avian veterinary medicine. G. J. Harrison, DVM, Bird World, Nov., 1987
- ▶▶...offers an interesting synthesis of avian evolution, in general, tying together [the author's] views on evolutionary sequences involved in thermoregulation, insulation, egg care, care of young, mode of feeding, and degree of arboreality. Auk, July, 1988
- ▶▶.....scope..is impressive.....information conveyed..is almost overwhelming.....comprehensive discussions on..behavior, morphology, physiology, ecology, biogeography, and evolution of all birds.....extremely detailed discussion of the avian brain.....fascinating ideas on the evolution of bird reproductive behavior.....should provide much fuel for thought & some debate among students of avian evolution.....detailed descriptions of captive bird breeding and experimentation provide numerous ideas for..research on captive birds..... a must for anyone seriously interested in avian evolution... Wilson Bull., Sept., 1989

**POSTDOCTORAL FELLOWSHIP
AT THE
AMERICAN MUSEUM OF NATURAL HISTORY**

The Frank M. Chapman Memorial Fund Committee welcomes applications for the Postdoctoral Fellowship Program in the areas of evolutionary and systematic ornithology. The Fellowship is usually for one year, but applicants may apply for two years, with a review of performance after the first year.

Deadline for applications is 15 January.

For application form and brochure, please write to:

Frank M. Chapman Memorial Fund

Department of Ornithology / American Museum of Natural History
Central Park West at 79th Street New York, New York 10024-5192, U.S.A.

The Birds of Africa

Volume IV

Broadbills to Chats

edited by
**Stuart Keith, Emil K. Urban,
and C. Hilary Fry**

From a Review of Previous Volumes
*"The most comprehensive
accounting of African birds
ever attempted. The book is
simply magnificent...brilliant
success...an essential work."*

—WILDLIFE BOOK REVIEW

Volume IV, in this definitive and authoritative series, covers the first 312 of the approximately 1,200 passerine species which occur in continental Africa and the outlying islands. As in the first three volumes, each breeding species receives full coverage with sections on range and status, description, voice, general habits, food, and breeding biology. Non-breeding visitors are treated more briefly. The text concentrates on the bird's status and biology while in Africa. Range maps are given for each bird and superspecies maps are shown where appropriate. Large color plates, illustrated by Martin Woodcock, adopt a formal, field-guide style to emphasize the identification points of the more difficult groups. Ian Willis' line drawings elaborate on displays and patterns of behavior described in the text. The beauty and scholarship of this now standard reference on African birds ensures it a place on every ornithologist's bookshelf.

July 1992, 609 pp., \$185.00/ISBN: 0-12-137304-5

Volume III Parrots to Woodpeckers

edited by
**C. Hilary Fry,
Stuart Keith,
and Emil K. Urban**

1988, 611 pp., \$165.00
ISBN: 0-12-137303-7

Volume II Gamebirds to Pigeons

edited by
**Emil K. Urban,
C. Hilary Fry,
and Stuart Keith**

1986, 552 pp., \$165.00
ISBN: 0-12-137302-9

Volume I Ostriches to Falcons

**Leslie H. Brown, Emil K. Urban,
and Kenneth B. Newman**

1982, 521 pp., \$165.00
ISBN: 0-12-137301-0

The Vultures of Africa

Peter Mundy, Duncan Butchart, John Ledger, and Steven Piper

For the first time ever, **The Vultures of Africa** presents all 11 species in an authoritative account that will rank as one of the most important works on these fascinating yet threatened birds. Dr. Peter Mundy and his fellow authors answer every con-

ceivable question on the biology and lifestyle of these birds in a text that is a refreshing departure from traditional bird monographs. More than 130 photographs, and numerous maps and diagrams lend visual immediacy to this absorbing text.

November 1992, c. 450 pp., \$118.50/ISBN: 0-12-510585-1

OXFORD UNIVERSITY PRESS

**THE HANDBOOK OF
AUSTRALIAN, NEW ZEALAND
AND ANTARCTIC BIRDS**
Volume 1: Ratites to Ducks, Parts A & B
EDITED BY STEPHEN MARCHANT
AND PETER HIGGINS
This superbly illustrated handbook details the
fascinating world of birdlife in Australasia.
Essential for collectors.
1991 * 1056 pp.; 100 color, 300 b&w plates
\$295.00

**BUSTARDS, HEMIPODES,
AND SANDGROUSE**
Birds of Dry Places
PAUL A. JOHNSGARD
This monograph covers all 51 extant species of
these diverse bird families, and examines taxonomy
and phylogeny, zoogeographic patterns, social
behavior, and breeding biology.
October 1991 * 304 pp.; 51 color plates, 53 illus.
\$135.00

**BIRD-PARASITE
INTERACTIONS**
Ecology, Evolution, and Behavior
EDITED BY J.E. LOYE AND M. ZUK
This book draws together experts in the field to
provide an invaluable reference of current work in
bird-parasite interactions. The book addresses the
contemporary context of research in bird-parasite
systems, and case studies which combine theoretical
concepts with evidence from the literature and
experimental data.
(*Oxford Ornithology Series 2*)
1991 424 pp.; 62 illus.
\$69.95

**A DICTIONARY OF
SCIENTIFIC BIRD NAMES**
JAMES A. JOBLING
"In examining this book, I have encountered every
name I have looked for. The book is complete....A
helpful addition to...reference libraries."—*Pacific
Seabird Group Bulletin*.
1992 304 pp.; illus. \$29.95

BIRD POPULATION STUDIES
Relevance to Conservation
and Management
EDITED BY C.M. PERRINS, J.D. LEBRETON
AND G.J.M. HIRONS
This volume reviews avian population dynamics and
explores ways in which population studies contrib-
ute to effective conservation.
(*Oxford Ornithology Series 1*)
1991 704 pp.; 155 illus.
\$105.00

**THE EVOLUTION OF
LIFE HISTORIES**
STEPHEN C. STEARNS
This up-to-date textbook summarizes life-history
evolution, and describes major analytical tools,
their applications, and provides helpful problems
and discussion questions.
June 1992 250 pp.; 115 illus.
paper \$29.95

NATURAL SELECTION
Domains, Levels, and Challenges
GEORGE C. WILLIAMS
In this important volume, George Williams
examines the mechanism and action of natural
selection in evolution, including discussions of the
gene as the unit of selection, clade selection and
macroevolution, stasis, and other issues.
(*Oxford Series in Ecology and Evolution*)
1992 288 pp.; 15 illus.
cloth \$45.00/ paper \$24.95

**DUNNOCK BEHAVIOUR
AND SOCIAL EVOLUTION**
N.B. DAVIES
This book gives a full account of the mating systems
of the dunnock or hedge sparrow, *Prunella
modularis*. Detailed observations, elegant field
experiments, and DNA fingerprinting are combined
to show how this variable social organization arises
from selfish individuals competing to maximize
their own reproductive success.
(*Oxford Series in Ecology and Evolution*)
July 1992 236 pp.; 86 illus.
paper \$24.95/ cloth \$70.00

ECOLOGY AND CONSERVATION OF NEOTROPICAL MIGRANT LANDBIRDS

*Edited by John M. Hagan III
and David W. Johnston*

This is the first technical volume to focus exclusively on northern hemispheric migratory landbird declines and their conservation, with contributions from more than one hundred leading scholars in the Americas and the Caribbean. The reports probe the reasons for population changes, discuss species behavior during summer and winter months, and gauge the impact of environmental events on landbirds.

PIONEER ECOLOGIST The Life and Work of Victor Ernest Shelford, 1877-1968

Robert A. Croker

Foreword by François Vuilleumier

"A most readable biography of Shelford. . . [It] is organized by themes: Shelford's scientific development at Chicago, his life-long career at Illinois, his challenging collaboration with Frederic Clements, his Continental travels with students, and his role in the developing conservation movement through the Ecological Society of America and the National Park Service."—*Science*

1991 24 b&w illus. 240pp. Cloth: 0-87474-315-X \$27.50

SARAPIQUÍ CHRONICLE

A Naturalist in Costa Rica

Allen M. Young

"This is the first and only detailed published account of the experiences of a researcher working in Costa Rica during a seminal period for tropical field biology. Young's accurate and sympathetic portrayal of the Sarapiquí region will evoke vivid memories for hundreds of biologists who have worked and lived there over the last quarter century."—Peter H. Raven, Director, Missouri Botanical Garden

1991 60 b&w illus. 384 pp.

SOFTWARE FOR ORNITHOLOGISTS

BirdBase 2 was called in its *Auk* review (v. 108, p. 456) "a sophisticated database management program specifically tailored for anyone who works with lists of birds....remarkably fast....a great program." With all AOU North American and Hawaiian species names in the database, the price of this IBM-compatible software is \$59.95 + \$3.00 shipping. With every species in Dr. James Clements' *Birds of the World* (4th Ed.) also included, it is \$99.95 + \$5.00 shipping. A hard disk and 640K of RAM are needed with the world species.

BirdLexi contains MS-DOS ASCII lexicon files that make it easy to add to the spelling checker of almost all IBM or Macintosh word processors the scientific and common names of the nearly 9700 birds in Clements' book, supplemented by plural forms of common names and by the few AOU names not in the book. Its *Auk* review (v. 109, p. 212) said it is "a welcome contribution....handy for many writers." The price is \$49.95 + \$3.00 shipping.

MasterCard, Visa, US dollar checks, and major organization purchase orders are accepted. Double shipping charges for overseas orders. Add 8% tax for CA orders. Specify the size of an IBM-compatible's floppy disk drive or, for a Macintosh using *BirdLexi*, of the floppy disk drive that is IBM compatible.

IN MEMORIAM: HERMANN RAHN, 1912-1990. <i>Carol M. Vleck</i>	190
SHORT COMMUNICATIONS AND COMMENTARIES	
Asynchronous polygyny in the House Wren (<i>Troglodytes aedon</i>). <i>Michael S. Quinn and Geoffrey L. Holroyd</i>	192
Basic technique for preparation of down for examination with the scanning electron microscope. <i>Roxie C. Laybourne, Beth Ann Sabo, and Ann Morningstar</i>	195
Sexual selection and the evolution of extravagant traits in birds: Problems with testing good-genes models of sexual selection. <i>Ian L. Jones</i>	197

Confusing models with tests in studies of sexual selection: Reply to Jones. <i>Richard Buchholz</i>	199
Comparing actual and random distributions of nearest neighbors. <i>Ronald P. Larkin</i>	202
Reply to Larkin. <i>Scott M. Pearson</i>	203
WILLIAM BREWSTER MEMORIAL AWARD, 1991: LEWIS W. ORING	205
ELLIOTT COUES AWARD, 1991: JOHN A. WEINS	206
BOOK REVIEWS. <i>Edited by Bruce M. Beehler</i>	208

NUMBER 2

TWO SONG POPULATIONS OF THE NORTHERN PARULA. <i>Ralph R. Moldenhauer</i>	215
DIVING PATTERN AND PERFORMANCE IN NONBREEDING GENTOO PENGUINS (<i>PYGOSCELIS PAPUA</i>) DURING WINTER. <i>Tony D. Williams, Akiko Kato, John P. Croxall, Yasu Naito, Dirk R. Briggs, Steven Rodwell, and Tim R. Barton</i>	223
EFFECTS OF AGE, SEX, AND FAT LEVEL ON WING LOADING IN DARK-EYED JUNCOS. <i>C. Ray Chandler and Robert S. Mulvihill</i>	235
EFFECTS OF PARENTAL AGE ON HATCHING ASYNCHRONY, EGG SIZE AND THIRD-CHICK DISADVANTAGE IN WESTERN GULLS. <i>William J. Sydeman and Steven D. Emslie</i>	242
ONSET OF INCUBATION IN YELLOW WARBLERS: A TEST OF THE HORMONAL HYPOTHESIS. <i>Percy N. Hébert and Spencer G. Sealy</i>	249
STRUCTURE OF TURNING IN AIRBORNE ROCK DOVE (<i>COLUMBA LIVIA</i>) FLOCKS. <i>Harold Pomeroy and Frank Heppner</i>	256
WATER AND ENERGY LIMITATIONS ON FLIGHT DURATION IN SMALL MIGRATING BIRDS. <i>Nurit Carmi, Berry Pinshow, Warren P. Porter, and Jim Jaeger</i>	268
VARIABLE MATING SYSTEM OF A SEDENTARY TROPICAL DUCK: THE WHITE-CHEEKED PINTAIL (<i>ANAS BAHAMENSIS BAHAMENSIS</i>). <i>Lisa Guminski Sorenson</i>	277
REFLECTANCE SPECTRA OF PLUMAGE AREAS COLORED BY GREEN FEATHER PIGMENTS. <i>Jan Dyck</i>	293
OBSERVATIONS ON THE SYSTEMATICS, BEHAVIOR, AND VOCALIZATIONS OF " <i>THAMNOMANES</i> " <i>OCCIDENTALIS</i> (FORMICARIIDAE). <i>Bret M. Whitney</i>	302
EFFECTS OF VARIABLE HUMIDITY ON EMBRYONIC DEVELOPMENT AND HATCHING SUCCESS OF MOURNING DOVES <i>Glenn E. Walsberg and Catherine A. Schmidt</i>	309
LUNAR INFLUENCE ON FORAGING AND NESTING ACTIVITY OF COMMON POORWILLS (<i>PHALAENOPTILUS NUTTALLII</i>). <i>R. Mark Brigham and Robert M. R. Barclay</i>	315
MULTIPLE BROODING AND PRODUCTIVITY OF A NEOTROPICAL MIGRANT, THE BLACK-THROATED BLUE WARBLER (<i>DENDROICA CAERULESCENS</i>), IN AN UNFRAGMENTED TEMPERATE FOREST. <i>Richard T. Holmes, Thomas W. Sherry, Peter P. Marra, and Kenneth E. Petit</i>	321
LIVING OFF THE WAX OF THE LAND: BAYBERRIES AND YELLOW-RUMPED WARBLERS. <i>Allen R. Place and Edmund W. Stiles</i>	334
BIRD SPECIATION IN SUBTROPICAL SOUTH AMERICA IN RELATION TO FOREST EXPANSION AND RETRACTION. <i>Manuel Nores</i>	346
BIOCHEMICAL ANALYSIS OF RELATIONSHIPS OF MEDITERRANEAN <i>ALECTORIS</i> PARTRIDGES. <i>Ettore Randi, Alberto Meriggi, Rita Lorenzini, Gea Fusco, and Philip U. Alkon</i>	358
DIFFERENTIAL GROWTH PATTERNS OF NESTLING BROWN-HEADED COWBIRDS AND YELLOW-HEADED BLACKBIRDS. <i>Catherine P. Ortega and Alexander Cruz</i>	368
IN MEMORIAM: JAMES C. GREENWAY, JR., 1903-1989. <i>François Vuilleumier</i>	377
IN MEMORIAM: HENRY M. STEVENSON, 1914-1991. <i>Frances C. James</i>	380
IN MEMORIAM: OLLI JUHANI JÄRVINEN, 1950-1990. <i>Risto A. Väisänen</i>	381
IN MEMORIAM: DOMINIC LOUIS SERVENTY, 1904-1988. <i>Allen Keast</i>	382
SHORT COMMUNICATIONS AND COMMENTARIES	
Further information on the genetics of bill crossing in Crossbills. <i>Jeffrey G. Groth</i>	383

Estimating absolute densities of flying seabirds using analyses of relative movement. <i>Larry Spear, Nadav Nur, and David G. Ainley</i>	385
Cost of short flights in the Willow Tit measured with doubly-labeled water. <i>Allan Carlson and Juan Moreno</i>	389
Daily energy expenditure by Black-capped Chickadees (<i>Parus atricapillus</i>) in winter. <i>William H. Karasov, Margaret C. Brittingham, and Stanley A. Temple</i>	393
Exotic birds: A growing problem with no easy solution. <i>Stanley A. Temple</i>	395
BOOK REVIEWS. <i>Edited by Bruce M. Beehler</i>	398

NUMBER 3

CONTINUOUS LAYING BY AMERICAN COOTS IN RESPONSE TO PARTIAL CLUTCH REMOVAL AND TOTAL CLUTCH LOSS. <i>Todd W. Arnold</i>	407
AGE-RELATED EFFECTS OF TESTOSTERONE, PLUMAGE, AND EXPERIENCE ON AGGRESSION AND SOCIAL DOMINANCE IN JUVENILE MALE SATIN BOWERBIRDS (<i>PTILONORHYNCHUS VIOLACEUS</i>). <i>Ken Collis and Gerald Borgia</i>	422
ESTIMATING CONSPECIFIC NEST PARASITISM IN THE NORTHERN MASKED WEAVER BASED ON WITH-IN-FEMALE VARIABILITY IN EGG APPEARANCE. <i>Wendy M. Jackson</i>	435
ESTIMATING AGE OF YOUNG BIRDS WITH A MULTIVARIATE MEASURE OF BODY SIZE. <i>Scott G. Gilliland and C. Davison Ankney</i>	444
ONTOGENESIS OF INTESTINAL NUTRIENT TRANSPORT IN DOMESTIC CHICKENS (<i>GALLUS GALLUS</i>) AND ITS RELATION TO GROWTH. <i>Bryan S. Obst and Jared Diamond</i>	451
SYSTEMATIC RELATIONSHIPS AMONG SOME ANATINI AS DERIVED FROM RESTRICTION-ENDONUCLEASE ANALYSIS OF A REPEATED DNA COMPONENT. <i>James M. Tuohy, Kevin P. McHugh, and Siwo R. de Kloet</i>	465
ROLES OF EGG MASS AND INCUBATION PATTERN IN ESTABLISHMENT OF HATCHING HIERARCHIES IN THE BLACKBIRD (<i>TURDUS MERULA</i>). <i>Robert D. Magrath</i>	474
EFFECTS OF FOOD ABUNDANCE AND MALE PARENTAL CARE ON REPRODUCTIVE SUCCESS AND MONOGAMY IN TREE SWALLOWS. <i>Peter O. Dunn and Susan J. Hannon</i>	488
VISIBLE MORNING FLIGHT OF NEOTROPICAL LANDBIRD MIGRANTS AT CAPE MAY, NEW JERSEY. <i>David S. Wiedner, Paul Kerlinger, David A. Sibley, Paul Holt, Julian Hough, and Richard Crossley</i>	500

PROCEEDINGS OF THE ONE HUNDRED AND NINTH STATED MEETING.....	1AA-34AA
RECENT ORNITHOLOGICAL LITERATURE.....	1A-52A, 1B-30B, 1C-38C

DATES OF ISSUES OF "THE AUK"

VOL. 109, No. 1—14 APRIL 1992

VOL. 109, No. 2—8 MAY 1992

VOL. 109, No. 3—6 OCTOBER 1992

VOL. 109, No. 4—31 MARCH 1993

A Quarterly Journal of Ornithology PUBLISHED BY THE AMERICAN ORNITHOLOGISTS' UNION

Editor: GARY D. SCHNELL, *The Auk*, Department of Zoology, Sutton Hall, 625 Elm Avenue, University of Oklahoma, Norman, Oklahoma 73019, USA. Telephone (405) 325-2784. FAX (405) 325-7504.

Managing Editor: NEIL J. BUCKLEY.

Associate Editors: JOHN L. TRAPP (Recent Ornithological Literature) and BRUCE M. BEEHLER (Book Reviews).

The Auk welcomes original reports on the biology of birds. Appropriate topics include the documentation, analysis, and interpretation of laboratory and field studies, theoretical or methodological developments, and reviews of information or ideas. Contributions written in English are encouraged from throughout the world.

Manuscript preparation.—Submit three copies of each manuscript, complete with tables, figure captions, and figures (retain original figures). **Double-space all written material** (including tables and figure legends) on standard-sized stationery sheets. Number pages through the Literature Cited. Do not hyphenate words at the ends of typewritten lines. Type tables separately from the text; type figure captions consecutively on a separate page. The manuscript should conform to general usage in recent issues (note stylistic changes incorporated in January 1992). The title page (numbered) should contain full title, and authors' names and addresses at the time of the research. The present address, if different, should be indicated as a footnote. The title page also includes running heads (<36 characters), and the name and mailing address of the individual to whom proofs should be sent.

An Abstract (<5% of paper length) should precede each regular article. It should summarize important premises, recapitulate findings, and give conclusions. Text citations should include the author and year (e.g. Darwin 1858, Wolter and Hunter 1968, Mayr et al. 1989); multiple citations should be arranged chronologically. Citations of specific page numbers, tables, or figures may be appropriate in certain situations (e.g. Diamond 1991:465-466, Zink et al. 1991:fig. 1, Dawson and Mannan 1991:table 6). Acknowledgments precede the Literature Cited. Title abbreviations of serial publications follow the International Serial Data System (ISDS) as indicated in *Serial Sources for the BIOSIS Previews Database* (1991, BIOSIS, Philadelphia), which is provided with *Biological Abstracts*. Scientific and English names of birds are given at first mention and follow the AOU's *Check-list of North American Birds* (1983) and its supplements. Measurements (and their designated abbreviations) are to be in SI units (see B. N. Taylor [Ed.], 1991, *The international system of units [SI]*, NIST Spec. Publ. 330, National Institute of Standards and Technology, U.S. Dep. Commerce, U.S. Government Printing Office, Washington, D.C.). In general, abbreviations of statistical terms conform to the fifth edition of the *CBE CBE Style Manual* (1983, available from CBE, 9650 Rockville Pike, Bethesda, Maryland 20814). Use continental dating (e.g. 29 September 1990), the 24-hour clock (e.g. 0800 and 2035), and standard time (not daylight savings time).

Tables and figures should not duplicate material in the text or in each other. Each table requires a short heading; give particular attention to the form of table boxheads and do not include vertical rules. Illustrations should be prepared for one- or two-column width, keeping in mind the size of the *Auk*. The style of figures should be uniform. Helvetica or a similar sans serif style of type is recommended; typical typewriter lettering is unacceptable on figures.

After a paper has been accepted for publication, original figures and the original plus one copy of the manuscript (revised if necessary) are to be sent to the Editor. Illustrations in a large format are not desirable, since they are easily damaged or misplaced; if possible, original illustrations or high-quality reproductions should be no larger than standard-sized stationery sheets. On the back, each original illustration should have the figure number, author name, journal name, and an indication of the top of the figure. Drawings should be on good-quality paper and allow for about 20% reduction. Photographs should be glossy prints of high quality and approximately of the size they are to appear in print. Color figures will be considered as figure plates or a frontispiece.

Proofs, reprints, and charges.—Authors will receive page proofs for approval, along with the original typescript. Both must be returned within 48 h to the editorial office to avoid publication delays. A reprint order form will be sent with proofs; reprints are billed following the printer's current cost schedule. Because changes in proofs are expensive, authors should not expect to make major modifications in their work at this stage. Excessive alterations (i.e. more than about one line reset per two printed pages) in proofs will be charged to the author at the rate of \$3.00 per reset line. Authors should keep the Editor informed of address changes, so proofs will not be delayed. The AOU requests that authors, if possible, bear part or all of the cost of publishing their papers when grant, institutional, or personal funds are available for the purpose. Current costs per printed page are \$75; a minimum contribution of \$38 per page is recommended, but the AOU is pleased to receive any payment considered appropriate. Authors who do not have access to publication funds may request a waiver of this payment.

Books for review.—Forward books for review directly to: Robert M. Zink, Associate Editor for Book Reviews, Bell Museum of Natural History, 100 Ecology Building, University of Minnesota, St. Paul, Minnesota 55108, USA.
