**AVIAN COMMUNITY, CLIMATE, AND SEA-LEVEL  
CHANGES IN THE PLIO-PLEISTOCENE OF THE FLORIDA  
PENINSULA**

**by  
Steven D. Emslie**

**Ornithological  
Monographs #50**

**In this important contribution to avian community development, Steven Emslie provides a chronology of Florida avifaunas during the last 2.5 million years, synthesizing 15 years of original paleontological research, as well as the historic contributions of the late Pierce Brodkorb. The volume provides detailed descriptions of 11 previously unidentified fossil avifaunas and analyses of the effects of climate, sea-level, and Neotropical and western North American avifaunas on avian species composition of the Florida Peninsula.**

**Each copy is \$20.00 (\$16.00 for AOU members). Add \$3.50 per copy for shipping and handling in the U.S. and \$5.00 for all other countries. Make payment by MasterCard, Visa, or check in U.S. funds payable to the American Ornithologists' Union and send to:**

### **Instructions to Contributors**

*The Auk* publishes original reports on the biology of birds. Appropriate topics include documentation, analysis, and interpretation of laboratory and field studies, theoretical or methodological developments, and reviews of information or ideas. Authors are encouraged to write papers from the perspective of general concepts and theories, and to consider the relevance of their findings to taxa in addition to birds. *The Auk* strives to publish a color frontispiece with each lead article; authors are encouraged to submit suitable color illustrations. Contributions are welcome from throughout the world but must be written in English. Submit five copies of each manuscript complete with tables, figure legends, and figures (retain original figures until notified) to the Editor. Include a copy of the manuscript on a 3.5-inch diskette (WordPerfect preferred, but identify the software). Double-space all written material (including tables and figure legends) on standardized stationery. Number pages through the figure legends. Submit tables separately from the text; type figure legends consecutively on a separate sheet. Manuscripts should conform to general usage in the most recent issue of the journal. The title page should contain: (1) full title; (2) authors' names and addresses; (3) left and right running heads (<36 characters each); and (4) name, mailing address, and e-mail address of author to whom correspondence should be sent. **Detailed instructions to contributors are available in *Auk* 116(4):1171–1174; copies may be obtained from the Editor. Paying close attention to these instructions will hasten the processing of your manuscript and gratify the editorial staff.**
