

REVIEWERS FOR *THE AUK*, 1999

The review process is essential to the maintenance of high scientific standards in a journal. The efforts of individual referees are remarkable, and we take this opportunity to acknowledge publicly those who contributed reviews during the period that Volume 116 was in preparation (reviews completed from 1 June 1998 through 31 May 1999). The memorials were solicited and managed by C. Stuart Houston. Individuals who contributed two or more reviews are signified with an asterisk.
