

Kansas Breeding Bird Atlas

William H. Busby and John L. Zimmerman

"A major contribution to our knowledge of bird status and distribution. An outstanding example of 'birding with a purpose,' useful for both ornithologists and recreational birders alike."

—Richard H. Payne, President, American Birding Association

"A definite asset to Kansas ornithology and a tribute to all of the dedicated birdwatchers that made it possible."—Max Thompson, coauthor of *Birds in Kansas*

"A richly valuable resource for avian biologists and land managers."—Jerome Jackson, author of *Bird Conservation*

"Will undoubtedly serve as a benchmark for years to come."

—Brainard Palmer-Ball, author of *The Kentucky Breeding Bird Atlas*

488 pages, 202 line drawings, 341 maps, 399 tables, Cloth \$35.00

Prairie Birds

Fragile Splendor in the Great Plains

Paul A. Johnsgard

"Johnsgard, one of the premier ornithologists of the North American Great Plains, reminds us that landscape conservation is valued from historical perspective and measured in quality, not quantity, of species. He shares the simple beauty of prairie as it evolved then and not as we have confused it today."

—Fritz Knopf, coeditor of *Prairie Conservation*

352 pages, 47 drawings, 14 maps, Cloth \$29.95

Available at bookstores or from the press.

A Telemetry Receiver Designed with The Researcher in Mind

What you've been waiting for!

Finally, a highly sensitive 999 channel synthesized telemetry receiver that weighs less than 13 ounces, is completely user programmable and offers variable scan rates over all frequencies. For each animal being tracked, the large LCD display provides not only the frequency (to 100Hz) and channel number, but also a 7 character alphanumeric comment field and a digital signal strength meter. Stop carrying receivers that are the size of a lunch box or cost over \$1500. The features and performance of the new R-1000 pocket sized telemetry receiver will impress you, and the price will convince you.

Other Features Include:

- Factory tuned to any 4MHz wide segment in the 148-174MHz Band
- Very high sensitivity of -148dBm to -150dBm
- Illuminated display and keypad for use in low light or darkness
- User selectable scan rates from 1-30 seconds in 1 second steps
- Rechargeable batteries operate the receiver for 12 hours and can be replaced with standard AA Alkaline batteries in the field. Both 12vdc and 110vac chargers are included.

- 6.1" (15.5cm) high,
2.6" (6.6cm) wide,
1.5" (3.8cm) deep.

- 3 year warranty
- 1 day delivery

\$695.00

Please specify desired 4MHz
wide segment in the
148-174MHz band

Visit our website for complete specifications, operating manual and information on the R-1000 or call our toll-free number to order your receiver now.

Australian Ornithological Conference

Charles Sturt University, Bathurst 4–7 December 2001

The AOC is intended to provide a forum for the exchange of information and ideas between people involved in avian-based research and conservation throughout Australasia. Designed to complement the 4-yearly Southern Hemisphere Ornithological Congress, it is anticipated that the AOC will be held every two years and become the main scientific event on the Australian ornithological calendar.

The conference program will feature topical symposia, poster sessions, workshops and round-table discussions and contributed paper sessions. Professor Allen Keast will give the keynote address on "Adaptations of birds to an arid continent".

For more information on the conference, the venue, online registration and submission of abstracts, visit the conference website.

Trogon and Quetzals of the World

Paul A. Johnsgard

Beautifully illustrated, this comprehensive review of trogons and quetzals—the first to be published in more than 150 years—covers all

thirty-nine extant species. The book includes detailed species accounts, range maps, and identification keys as well as a chapter about the birds' biology, evolution, and behavior.

40 color, 19 b&w illus., 13 b&w photographs • 223 pp.
Hardcover \$49.95

The Pheasants of the World: Biology and Natural History

Paul A. Johnsgard

“A new edition of a popular work on this interesting and beautiful family.”—*Indiana Audubon Quarterly*

42 color photographs, 8 color lithographs,
68 b&w line drawings, 24 maps • 432 pp. • Hardcover \$50.00

Composition of Scientific Words

Roland Wilbur Brown

“A superb tool for composing scientific names . . . and a fascinating work for anyone interested in words.”—*Taxon*

882 pp. • Paperback \$27.95

Book Watching

Raptor Watch: A Global Directory of Raptor Migration Sites

Compiled and edited by Jorje I. Zalles and Keith L. Bildstein

Bringing together information from hundreds of raptor

experts, this comprehensive guide provides detailed accounts of 388 globally significant “watchesites” organized by continents. For each site, the contributors document raptor species, migration periods, protection status, land use, and monitoring activities.

20 b&w photographs, 38 line illus. • 419 pp.

Hardcover \$58.00

Published with BirdLife International and Hawk Mountain Sanctuary

The Tanagers: Natural History, Distribution, and Identification

Morton L. Isler and Phyllis R. Isler

“Once in a very great while there is published a monograph of such profound scientific comprehensiveness and

sentient aplomb that it immediately takes its place in the annals of natural history as a model of its kind.”—*Audubon Naturalist*

32 color plates, 263 maps • 406 pp. • Paperback \$39.95

Lane

ZOOLOGY & ORNITHOLOGY

SPECIMEN CABINETS

PERMANENT SPECIMEN PRESERVATION

For over forty years, Lane Science Equipment has been the name museums, universities and individual collectors trust most to protect their valuable specimens.

To learn more about our Zoology & Ornithology Cabinets or any of our other products, visit our website at www.lanescience.com or contact us at the listing below.

- * All steel construction
- * Powder paint finish
- * Double neoprene door seal
- * No adhesives
- * Lane double panel lift-off door
- * Reinforced for easy stacking
- * Three-point locking mechanism

Elective Councilors and Living Past Presidents

2001: Walter D. Koenig, Scott M. Lanyon, Stephen M. Russell. 2002: Kenneth P. Able, Susan Hannon, Scott K. Robinson. 2003: Edward H. Burt, Jr., Carla Cicero, Richard O. Prum.

Past Presidents: Ernst Mayr (1957–59), Dean Amadon (1964–66), Harold F. Mayfield (1966–68), Robert W. Storer (1970–72), Wesley E. Lanyon (1976–78), Harrison B. Tordoff (1978–80), Thomas R. Howell (1982–84), Frances C. James (1984–86), Glen E. Woolfenden (1988–90), Brina Kessel (1992–94), Richard C. Banks (1994–96), Ned K. Johnson (1996–98), Frank B. Gill (1998–00).

Instructions to Contributors

The Auk publishes original reports on the biology of birds. Appropriate topics include documentation, analysis, and interpretation of laboratory and field studies, theoretical or methodological developments, and reviews of information or ideas. Authors are encouraged to write papers from the perspective of general concepts and theories, and to consider the relevance of their findings to taxa in addition to birds. *The Auk* publishes a color cover with each issue; authors are encouraged to submit suitable color illustrations. Contributions are welcome from throughout the world but must be written in English. Submit three copies of each manuscript complete with tables, figure legends, and figures (retain original figures until notified) to the Editor. Include a copy of the manuscript on a 3.5-inch diskette (WordPerfect preferred, but identify the software). Double-space all written material (including tables and figure legends) on standard-sized stationery. Number pages through the figure legends. Submit tables separately from the text; type figure legends consecutively on a separate sheet. Manuscripts should conform to general usage in the most recent issue of the journal. The title page should contain: (1) full title; (2) authors' names and addresses; (3) left and right running heads (<36 characters each); and (4) name, mailing address, and e-mail address of author to whom correspondence should be sent. **Detailed instructions to contributors are available at the journal's homepage (<http://www.aou.org/aou/auklet.html>), or copies may be obtained from the Editor. Paying close attention to those instructions will hasten the processing of your manuscript and gratify the editorial staff.**
