REPRINTS GRATIS.—I find I have on hand a surplus of reprints of a number of my papers on birds and mammals published within the past several years. These are lying idle, and I want to distribute them where they will be used—to active students of birds and mammals (not to mere collectors of separata or to dealers). I will send a set of these reprints, in the field of interest designated, expressage collect, to each applicant of above qualifications, as long as said surplus holds out.—J. GRINNELL, Museum of Vertebrate Zoology, University of California, Berkeley, California.
