FIELD BOOK OF BIRDS OF SOUTHWESTERN UNITED STATES

By Luther E. Wyman and Elizabeth F. Burnell

This book fits into the coat pocket, and as a field help is just about indispensable. The range map of each species is an innovation and must appeal to all field ornithologists. Mr. Wyman and Miss Burnell were both well known by all of us in California and their book is still an essential identification volume.

The publishers have sent us a small quantity of this attractive book which we are offering at \$1.49 plus 4c sales tax, per volume, postpaid anywhere. (This was published to sell at \$3.50.)

Don't wait too long, for our stock is not large and this desirable piece of ornithological work is essential to every library in the western part of the United States.—W. LEE CHAMBERS, Business Manager, 2068 Escarpa Drive, Eagle Rock, California.
