BIRDS OF CALIFORNIA

In checking over the remaining stock of the odd volumes of Dawson's "Birds of California," we find an additional sixty De Luxe sets, unbound but sewed and glued ready for binding. These sets have about ten color plates missing from vol. I; vols. II, III, and IV are complete. We will sell these at \$9.00 a set, postage extra, plus 27c sales tax for sets delivered in California. This offer cleans up a pile of odds and ends, a real bargain. Weight about forty pounds packed for shipment.

We also have about one hundred sets of Dawson's "Birds of California" in the Booklover's four-volume edition, no covers, but sewed ready for binding. These sets were marked imperfect by the publisher. We have checked these sets and find that they have some duplicate pages sewed in, but all the pages and plates belonging to this edition seem to be included. These sets are as clean as if just printed and will be sold just as they are. This edition contains 2121 pages, 1145 half tones, 48 colored plates, 16 photogravures, 32 duotones, and was published to sell at \$110.00. We are now offering these sets for \$5.00. Add 3% sales tax if to be delivered in California. Postage extra, or shipment can be made by express, charges collect. Weight twenty-eight pounds ready for shipment.
