Cash or exchange.—BEN F. BOLT, 1110 Armour Blvd., Kansas City 3, Mo.

FOR SALE—During the past five years we have accumulated a large stock of slightly damaged *Condors* and recently this lot has been enriched by donations of nearly three complete files from some of our oldest members. Most of these *Condors* are clean but show more or less wear, and some are slightly rumpled. As long as they last we will postpay volumes at ½ off our regular printed prices.—W. LEE CHAMBERS, Business Manager, Cooper Ornithological Club, Topanga, Calif.

PACIFIC COAST AVIFAUNA NO. 28

FOURTH TEN YEAR INDEX TO THE CONDOR

Vols. XXXI - XL 1929-1938

By JOHN McB. ROBERTSON

There is little one can say about indices, except that they are about the most useful of all our publications.

This latest index is more important than ever, for it covers the ten years in which *The Condor* reached new heights under the editorship of the late Joseph Grinnell. It prints to 153 pages.

Bound in buckram with gold lettering on backbone.....\$4.00 each

Bound in heavy paper covers.....\$3.00 each

Sent postpaid anywhere in the U. S. A. (2½% sales tax added for deliveries in California).

WE ALSO HAVE OTHER INDICES AS LISTED BELOW

Index to the Bulletin of the Cooper Ornithological Club, vol. I (1899), and its continuation, *The Condor*, vols. II to X (1900-1908); 48 pp. \$4.00. By Henry B. Kaeding. Just a few copies left.

Second Ten Year Index to *The Condor*, volumes XI-XX (1909-1918); 92 pp., \$2.00. By J. R. Pemberton.

Third Ten Year Index to *The Condor*, volumes XXI-XXX (1919-1928); 152 pp., \$2.00. By G. Willett.

PREPARATION OF MANUSCRIPTS FOR THE CONDOR

Articles published in the Condor normally are written by members of the Cooper Ornithological Club. Practically all the Club's money goes into the magazine; no editor and no business manager receive any pay other than the satisfaction of doing a service worthily. The preparation of good copy by the author will contribute greatly to accuracy of published output, dispatch in handling, and economy of production.

To be acceptable for inclusion in the Condor, articles must not duplicate in any substantial way material that is published elsewhere. Any type of subject bearing on birds may be considered; but the geographic areas of primary concern are western North America, Central America, and the Pacific Basin. Manuscripts may be submitted to any one of the editors (see inside front cover for address). Proofs with edited manuscripts will be sent to authors, at which time reprints may be ordered.

In the interests of accuracy and economy, observe the following: do not duplicate data in text, tables, or charts; check citations to original sources and verify text references; quoted statements must be exact replicas of the original; preferably use vernacular names applicable to the entire avian species (for a guide in this regard, see "The Distribution of the Birds of California," *Pac. Coast Avif.* No. 27, 1944:5-34); in general, avoid subspecific vernaculars; insert scientific names for species but not the subspecific name except in taxonomic papers or where the race concerned has been critically determined by the author or his collaborators; revise the manuscript repeatedly to remove superfluous words and phrases, immaterial detail, and repetitious statements.

Note Condor style and usage. "General Articles" and the "Field and Study" items are set up in different form. Provide a concise, meaningful title, and, where needed, subtitles within the text. Footnotes are not used. The address line may serve to indicate institutional connection, and to it should be added the date of transmittal of the manuscript. Terminal bibliographies are desirable where five or more titles are to be cited; otherwise, the references may be included in the text. For bibliographic style, note closely the practices employed in recent volumes of the journal. A factual summary is recommended for longer papers.

Rules for copy.—(1) typewrite material, using one side of paper only; (2) double space *all* material and leave liberal margins; (3) use $8\frac{1}{2} \times 11$ inch paper of standard weight (avoid onion skin); (4) carbon copies are not acceptable; (5) place tables on separate pages; (6) number pages in upper right hand corner.

Illustrations.—Photographs should be glossy prints of good contrast. Make line drawings with India ink; plan linework and lettering for at least $\frac{1}{2}$ reduction; do not use typewritten labels on the face of the drawing. Provide typed legends on separate sheets.

Helpful references on writing: *Manual of Style*, University of Chicago Press, and *Rules of the Editorial Committee*, University of California Press. On scientific nomenclature: A.O.U. Check-list (with supplements 19, 20 and 21) and *Pacific Coast Avifauna* No. 27; authors are not required to follow either of these works.

THE EDITORS OF THE CONDOR.
