INFORMATION ON BINOCULARS—For a simplified way to check the alignment of a binocular send for reprint of our article "Alignment" published in Jan. 1954 Audubon Magazine. It supplements our booklet "Know Your Binoculars," reprinting our earlier Audubon Magazine articles on how to choose the model best for your purpose and how to use it most advantageously; fully illustrated, 10¢. Both reprints free to members of Cooper Ornithological Society—write for your copies now. If your binocular is not functioning perfectly, send it to us for free collimator check and repair estimate. If you need a new one, send for our list of complete lines of Bausch and Lomb, German, and Japanese binoculars and 'scopes. All instruments guaranteed adjusted to U. S. Government specifications, and sent on 20 days' trial. We answer questions personally; if you have a binocular problem, let us help you solve it.—THE REICHERTS, Mirakel Repair Co., Mount Vernon 15, N.Y.

FOR SALE—H. W. Elliott, A Monograph of the Seal Islands of Alaska, U.S. Comm. of Fish & Fisheries, Washington, 1882, wrappers; D. S. Jordan, The Fur-seal Islands of the North Pacific Ocean, pts. 1-4, Washington, 1898, 4 vols. bound.—ROBERT A. MCCABE, Dept. Wildlife Management, University Wisconsin, Madison 6, Wis.

FOR SALE—The Auk, vols. 24-57 (1907-1940), 34 volumes, separate numbers in original covers, in excellent condition; price \$34.00 plus bookpost or express charges.—FRANK A. PITELKA, Museum of Vertebrate Zoology, Berkeley 4, California.

MUSIC IN NATURE

By LOYE MILLER

Four 12-inch, vinylite (non-breakable) phonograph records with over 50 bird songs and animal sounds.

This popular talk by Loye Miller is again available. Music in Nature is an informal discussion of the five elements of music—time, tone, tune, timbre, touch—in relationship to bird songs and animal sounds. These sounds are reproduced by Professor Miller's own vocal and whistled imitations. Highlights are the four calls of the California Quail, the songs and cries of the goldfinch, wolf, horned owl, tree-toad, and meadowlark, and the amazing combination of tongue flutter, whistle, and grunt used to reproduce the sound of the Sandhill Crane. Fifty of the bird songs and animal sounds are applicable in any state of the Union. This material is ideally suited for all grades of classroom instruction and is being used by many school districts throughout the country.

Loye Miller has made field studies of natural sounds for more than fifty years. As Professor of Biology in the University of California at Los Angeles, he has long been noted as a scientist and teacher and for his leadership in nature study groups and for his talks about birds and animals.

The University of California has given The Cooper Ornithological Society the right to sell Music in Nature as a contribution to Ornithology.

The four discs, seven sides recorded, \$7.50 plus 3% state sales tax in California.
