WORLD NATURE TOURS, INC. is pleased to offer its 1978 program. These tours are designed to see as many birds as possible in the areas visited, while still observing all aspects of natural history. Groups will be small and expert leaders will be used including Ben King, Len Robinson, Doug Pratt, Phil Bruner, Steve West, Luther Goldman, Max Thompson, Dan Tallman, Phil Agland, Don Messersmith and others. Write for specific tour brochures.

## FEATURE AREAS: MICRONESIA, CAMEROONS

Leaders for MICRONESIA will be Doug Pratt and Phil Bruner who have been studying the birds of the Pacific for several years and are preparing a field guide to the birds of the area. Doug is also an artist whose magnificent bird paintings have appeared in several recent natural history and birding journals. This is your chance to be on the first birding tour we know of to these remote islands with their rare, endemic species. CAMEROONS in West Africa offers many endemic birds, unspoiled rain forests and rare mammals. Phil Agland, the leader, has thoroughly scouted the country and promises a very rewarding experience for a small group of adventurous travelers who will be among the first American birders to visit this fascinating country.
