Total average number 2587, actual no. of nearest issue, 2650.

The California Quail

A. Starker Leopold

The California Quail is a charming bird, with its striking good looks and mellow call notes. Widely distributed along the Pacific Coast, it has long been of interest to bird-lovers, sportsmen, ranchers, and wildlife biologists. The definitive work from both the natural history and game management points of view, this comprehensive report summarizes what is known about the history, biology, and management of the species.

301 pages, 51 halftones, 25 line drawings, 40 tables, 31 charts, \$14.95
