

## NEWS AND NOTES

### ORNITHOLOGICAL MEETING

The Cooper Ornithological Society, the American Ornithologists' Union, and the Wilson Ornithological Society will hold their first Joint Meeting at the University of Montana, in Missoula, Montana, USA, from Tuesday through Sunday, June 21–26, 1994. A circular of information was mailed in February to all members of these societies. Others may obtain this circular from Donald A. Jenni, Department of Biological Sciences, University of Montana, Missoula, MT 59812.

### CORRECTION

In Table 1 of "Frugivory and coexistence in a resident and a migratory vireo on the Yucatan Peninsula" by

Greenberg, Niven, Hopp, and Boone (*Condor* 95:990–999), mean values and standard errors are inflated by an order of magnitude. The correct values are one-tenth those published.

### CORRECTION

In Table 1 of "Status and habitat use by American Avocets wintering at Humboldt Bay, California," by Evans and Harris (*Condor* 96:178–189), the wording for "6) Survey stations" was incorrect. It should have read "6) Survey stations 6 through 11."
