# The Princeton Guidebooks

## Chickadees, Titmice, Nuthatches, and Treecreepers

Simon Harrap and David Quinn

This is the first guide to cover all of these families across the globe. The comprehensive text provides extensive information about each species, including identification, description, vocalizations, geographical distribution and variation, habits, habitats, breeding biology, and relationships. Here is an authoritative guidebook that will appeal to both casual birders and professional ornithologists alike.

36 color plates. 110 color illustrations and maps.

Cloth: \$49.50 ISBN 0-691-01083-8

Not available from Princeton in the U.K. or E.E.C.

## Terns of Europe and North America

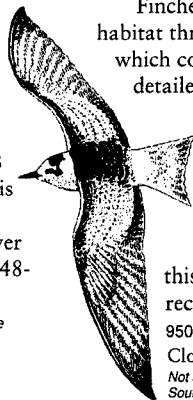

Klaus Malling Olsen  
and Hans Larsson

In Europe and North America there are 23 species of terns, all of which are described in this book. The text covers each bird in the field, in moult, and in the hand. It is accompanied by over 40 color plates, and the book concludes with a 48-page photographic section, also in full color.

Named 1994 Bird Book of the Year by Birdwatch magazine  
250 color photos and illustrations.

Cloth: \$39.50 ISBN 0-691-04387-6

Not available from Princeton in the U.K. or E.E.C.

## Polygyny and Sexual Selection in Red-Winged Blackbirds

William A. Searcy and Ken Yasukawa

The purpose of this book is to explain why red-winged blackbirds are polygynous and to describe the effects of this mating system on other aspects of the biology of the species. It reviews the results of many studies by other researchers, as well as presenting the authors' own results.

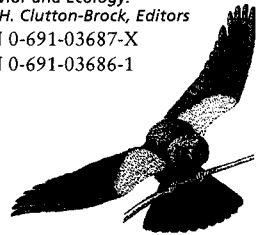

"The reader comes away with a very full understanding of red-winged blackbird biology."—*Choice*

69 line illustrations

*Monographs in Behavior and Ecology:*  
John R. Krebs and T. H. Clutton-Brock, Editors

Paper: \$29.95 ISBN 0-691-03687-X

Cloth: \$55.00 ISBN 0-691-03686-1

## Finches and Sparrows An Identification Guide

Peter Clement

Illustrations by Alan Harris and John Davis

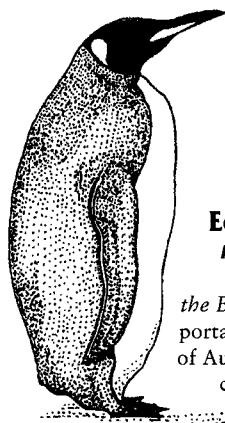

Finches and sparrows occupy almost every type of habitat throughout the world. *Finches and Sparrows*, which combines nearly 950 color portraits with detailed descriptions of every species, is an easy-to-use identification guide. For the first time all 290 species are described and illustrated in color. This is the most comprehensive and up-to-date guide to finches and sparrows available today.

"Thoroughly referenced throughout, this is a fine bird family monograph. Highly recommended."—*Choice*

950 color illustrations. 280 color maps.

Cloth: \$49.50 ISBN 0-691-03424-9

Not available from Princeton in the U.K., the E.E.C., and the Republic of South Africa

## The Princeton Field Guide to the Birds of Australia

Edited by Ken Simpson

Illustrated by Nicolas Day

*The Princeton Field Guide to the Birds of Australia* is a handy, portable manual for identification of Australian birds all over the country. In paintings of extraordinary beauty and precision, Nicolas Day captures

the details of all 770 bird species in Australia. More than 2000 color illustrations are accompanied by distribution maps, descriptive drawings, and essential field information edited by Ken Simpson.

Cloth \$39.50 ISBN 0-691-02575-4

Available March 1996

Available from Princeton in the U.S. and Canada only

## Illustrated Guide to the Birds of Southern Africa

Ian Sinclair, Phil Hockey, and Warwick Tarboton

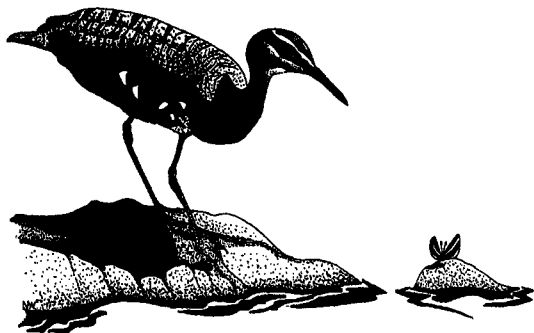

Illustrated by Peter Hayman and Norman Arlott

This is a comprehensive and up-to-date field guide to the birds of Southern Africa. Intended to aid birders in identifying and distinguishing birds in one of the world's richest birding areas, the book depicts over 900 species, resulting in the most comprehensively illustrated field guide ever produced for Southern Africa.

4000 illustrations in 200 color plates.

Cloth: \$45.00 ISBN 0-691-04469-4

Available from Princeton in the U.S. and Canada only

## Where to Watch Birds in Africa

Nigel Wheatley

*Where to Watch Birds in Africa* is a field guide designed to help birders and general wildlife enthusiasts organize the most enriching trips possible throughout the continent. From Morocco to Madagascar, this book presents over 200 bird-watching sites in detail and describes the species endemic to Africa. The traveler will find practical information on climate, transportation, accommodations, health, and safety and much more.

51 line drawings. 105 maps.

Cloth \$35.00 ISBN 0-691-02140-6 Available February 1996

Not for available from Princeton in the U.K. or the E.E.C.

## Where to Watch Birds in South America

Nigel Wheatley

A unique field guide and reference, *Where to Watch Birds in South America* is designed to help the avid birder and the general wildlife enthusiast organize eventful journeys throughout the richest continent for birds, where the species number over 3000. This book covers more than 200 of the best sites for birdwatching in extraordinary depth.

50 line drawings. 100 maps.

Cloth \$35.00 ISBN 0-691-04337-X

Not available from Princeton in the U.K. or E.E.C.

New in paperback

## Birds of Europe with North Africa and the Middle East

Lars Jonsson

Translated by David Christie

"If I were absolutely forced to take only one field guide with me on a birding trip to Europe, this is the one I would choose. The illustrations are outstanding and almost negate the need for a text."

—*Audubon Naturalist News*

Paper \$29.95 ISBN 0-691-02648-3 Available July 1996

Available from Princeton in the U.S., Canada, the Philippines, and Japan only
