Ringed Plover

The bird from Dahomey is the furthest south British Ringed Plover recovered to date. Also of note are two birds which were breeding on the Wash and were controlled in Morecambe Bay, one in autumn and one in winter.

Knot

During this period no fewer than 15 Knot were recovered in Greenland, 2 in Canada and 130 in Iceland. The number of Greenland and Canadian recoveries is unprecedented, the latter being the first in that country whilst the Greenland recoveries more than doubled the previous number from that country.
