- Addresses

Articles and ringing data (October-February) should be sent by 15th February 1976 to either Tony Prater, B.T.O. Beech Grove, Tring, Herts or Mike Pienkowski, 5 Brockmill Cottages, Beal, Berwick upon Tweed, Northumberland.

WSG GRANTS

The WSG will make available a sum of up to £50 for research grants in 1976. It is unlikely that more than £25 will be given for any one project, (which should, preferably, be designed to study breeding populations in Britain and Ireland). For full details see Bulletin 14.

WSG : Winter Meeting

The annual winter meeting of the WSG will take place during the Ringing and Migration Conference at Swanwick 9-11th January 1976. There will be the reports by the officers followed by talks by William Dick on the full results of the Mauritanian 1973 expedition, by Chris Reynolds on Little Ringed Plover data and by Keith Grant on the Greenshank data.
