The 50 Dunlin controlled in Sweden during the period mid July - early August were recorded as follows:- on the

Wash 13.4.68, 16.3.68, 30.8.69, (4.8.73), 29.9.73, 18.8.73, 27.2.71,
15.11.70, 28.8.72, 7.10.72, 26.5.75.
Humber 28.9.72, 11.9.71, 20.9.74
Butley 12.9.74
Morecambe Bay 8.7.72, 3.1.70, 4.5.74, 29.1.72
Dee 10.12.69, 31.3.68, 30.11.67, 29.1.72
Portsmouth 27.3.75, 24.2.74, 3.3.73, 22.10.72, 18.12.72
Solway 25.5.75, 13.4.75
Clyde 13.1.73 : Glamorgan 19.5.73 : Milford Haven 22.1.72
Conway 2.1.72 : Plym 24.1.74 : Belfast 28.2.75

(Juv/1W are underlined, 1S are bracketed)

There were also 20 autumn controls on the Wash of birds ringed in previous winters on the west and south coasts, 11 ringed during passage periods on the west and south coasts and 10 ringed on the east coast during passage periods.

The Dunlin recovered in Orkney was of note as it was breeding there.

Sanderling
