

RECENT PUBLICATIONS ON WADERS

- Although considerable effort is spent on trying to make these lists as complete as possible, coverage is inevitably somewhat dependant on the range of journals, etc. which are available to the Editor. Therefore, details of omissions and, if possible, reprints of papers are always welcome. These should be sent to M.W.Pienkowski (address on page 1). Thanks to all those who have supplied information, particularly to F.-U. Schmidt for assistance with German literature.
