

RECENT PUBLICATIONS ON WADERS

compiled by Theunis Piersma

We try to make these lists as complete as possible. Therefore, any help (e.g. sending titles, abstracts or reprints) is most welcome! These should be sent to: Theunis Piersma, Korte Nieuwsstraat 4, 9724 LC Groningen, The Netherlands (please note change of address). Thanks are due to Cor Smit and Jadwiga Gromadska for help. Translated titles of papers in languages other than English are bracketed: round brackets if the translation is by the author(s); square brackets if not. This list has been printed in two-column format for the first time. We hope that this will improve readability. It will also allow those readers who wish to compile complete reference lists to photocopy, and cut out, references for glueing onto card-index systems.
