

The WADER STUDY GROUP (WSG) is an association of amateur and professional workers on the Charadrii (waders or shorebirds) from all parts of the world. By 1982, membership of the WSG was over 500 people, more than half of the members living in countries other than Britain (where the group was formed in 1970), and including people in the Americas, Asia, Africa and Australasia, as well as Europe. New World members have their own section within the WSG. Interests of the Group have diversified from the original concentration on migration-related studies to embrace all aspects of research on waders, e.g. counts, breeding biology, feeding ecology and behaviour.

The aims of the WSG are to maintain contact between both amateur and professional individuals and groups studying waders; to help organise co-operative studies; and to provide a vehicle for exchange of information. The main means of achieving these aims is by the publication of the *Wader Study Group Bulletin* (see below). WSG maintains contacts with many regional, national and international bodies interested in bird research and conservation, notably the International Waterfowl Research Bureau (IWRB), and often works alongside them in co-operative studies. The Group has been involved also in the organisation of expeditions to remote areas to fill gaps in the knowledge of waders. Projects co-ordinated by WSG have included studies of the spring migration of Siberian-breeding Knot through Europe and Africa, and of other species passing through western Europe. Current projects include a comprehensive assessment of the networks of coastal sites used by shorebirds in western Europe in the non-breeding season; a large-scale investigation of spring migration through the Americas; a long-term monitoring of the usage of inland sites in Europe; and an investigation into the effects of severe winter weather in Europe. Most of these studies have immediate relevance to conservation as well as increasing basic understanding of wader biology. These comments apply also to the current WSG co-operative projects concerning breeding waders, particularly an intensive study of wader distributions and densities in the Outer Hebrides of Scotland, where rapid changes are being made due to agricultural practices. WSG also co-ordinates (on behalf of several national authorities) the use on waders of colour-marks visible in the field, and attempts to forward sightings of these.

Membership of the WSG is open to all individuals or groups interested in waders, and application forms can be obtained from the Membership Secretaries, N. & J. Clark, Department of Zoology, University of Edinburgh, West Mains Road, Edinburgh EH9 3JT, U.K. The subscription is devoted mainly to the cost of production and circulation of the *Bulletin*. The annual subscription is £10 (or US \$17 or Canadian \$21). Outside Europe, *Bulletins* will be sent by airmail for a total subscription of £13 (or US \$22 or Canadian \$27). Rates for institutions and payment through subscription services are £25 (or US \$42 or Canadian \$52), or for airmail posting £28 (or US \$47 or Canadian \$58). All cheques should be payable to "Wader Study Group" and must be in British, US or Canadian currency. Alternatively, payments may be made by bank giro (in English pounds) to Lloyds Bank Ltd., 7 Victoria Place, Haverfordwest, Dyfed SA61 23Z, U.K. (Bank sorting code no. 30-93-98), with reference to WSG account (no. 0095972); or by British Post Office Giro to account no. 471204404. Please ensure that your name and initials appear on the transfer form and that a membership application form is sent directly to WSG. Persons with bank accounts in Britain may use the bankers order form provided with the application form.

The *WADER STUDY GROUP BULLETIN* provides a forum for news, notices, recent ringing recoveries, recent publications, new methods of catching and study, articles and preliminary or interim publication of results from all parts of the world. The editors try to maintain a balance of material ranging from newsletter, informal

descriptions of research activities, meetings and expeditions to formal presentation of results or preliminary analyses.

The *Bulletin* appears three times per year, in April, August and December; the deadlines for copy being the first of February, June and October respectively, for notices, but articles must be received well before these dates. Articles, notes, papers, notices, obituaries, requests for information, books for review, reprints of papers and other items should be sent to the Editor, Dr. N.C. Davidson, Department of Zoology, University of Durham, South Road, Durham DH1 3LE, U.K. Material relating to the New World may be sent to the editors of the New World Section (Dr. J.P. Myers, Vertebrate Biology, Academy of Natural Sciences, 19th and the Parkway, Philadelphia, Pennsylvania 19103, U.S.A.; and Dr. R.I.G. Morrison, Canadian Wildlife Service, 1725 Woodward Drive, Ottawa, Ontario, Canada K1A 0E7). Matters relating to the circulation of the *Bulletin* should be sent to the Membership Secretaries (address above).

The Editors are always pleased to discuss possible contributions with potential authors, and to advise on presentation. Manuscripts should be typed or written clearly, with all lines double-spaced, leaving wide margins, and following the style of *Bulletin 40 (April 1984)* or later issues. Pay particular attention to the style of headings and reference lists. Scientific names should appear at the first mention of each species or, if all species occur in a table, scientific names may be given there instead. Tables and figures should, wherever possible, be designed to fit a single column width of 12 cm. Full page width is 25 cm. A single column of text comprises 47 characters (including spaces).

The *Bulletin* is produced from camera-ready copy printed by an Canon PW-1156A dot-matrix printer driven by a British Broadcasting Corporation Microcomputer Model B (Acorn Computers), with a Computer Concepts "Wordwise" word-processing chip. Authors with such equipment may submit copy in machine-readable form. Advice on this was given in *Bulletin 40*, and is summarised here. Material should be on a 5.25 inch floppy disc, single-sided, at single density, and preferably on 80-track (but 40-track is acceptable). Authors with a Canon or Epson printer can include "embedded commands" in the text for italics, underlining, superscripts etc. Otherwise, mark these features clearly on a print-out of your article, using a coloured-pen. A print-out of the article should in any case be sent as well as the machine-readable form. It may be possible for authors with a BBC Microcomputer, but not "Wordwise", to submit machine-readable material, but please consult the editor first.

Line illustrations and figures should be produced neatly in black ink on good quality white or tracing paper, with linear dimensions about 1.5 times intended publication size. These can then be used directly in printing. Lettering should be stencilled or by dry transfer (e.g. Letraset), and be at least 1.5 mm high after final reduction. If stencil or dry transfer is not available, leave the original illustration unlabelled, and mark the required lettering on a separate copy. Please send original illustrations, and retain a copy in case of loss or damage in transit. It would be helpful if two copies of each manuscript could be submitted.

Publication of interim results in *WSG Bulletin* is not intended to pre-empt publication of final results as journal papers. Readers are requested to bear in mind that results and analyses published in *WSG Bulletin* may be of a preliminary nature, and to take account of this if making reference to these articles in publications of their own. If editors of other publications wish to reprint items from *WSG Bulletin* with suitable acknowledgement, this can usually be arranged; the persons concerned should contact the WSG Editor.

WADER STUDY GROUP

BULLETIN No. 42

DECEMBER 1984

CONTENTS	PAGE
SUBSCRIPTIONS FOR 1985 NOW DUE	1
NEW SUBSCRIPTION RATES FOR INSTITUTIONS AND SUBSCRIPTION AGENCIES	1
ADDRESSES OF MEMBERS: AN IMPORTANT REQUEST	1
WADER BIBLIOGRAPHIES	1
MINUTES OF THE WADER STUDY GROUP ANNUAL GENERAL MEETING HELD AT WORCESTER COLLEGE OF HIGHER EDUCATION ON 1 SEPTEMBER 1984	2
WADER STUDY GROUP AGM AND AUTUMN MEETING, LA ROCHELLE, FRANCE, 5-6 OCTOBER 1985	3
SPRING MIGRATION OF RUFFS	3-4
INTERNATIONAL WADER MIGRATION STUDIES ALONG THE EAST ATLANTIC FLYWAY DURING SPRING 1985	5-9
WSG INTERNATIONAL PROJECT ON BLACK-WINGED STILTS by Phillipe Dubois	10-11
CURRENT COLOUR-MARKING SCHEMES by D.J. Townshend	12-14
ABSTRACTS OF TALKS GIVEN AT THE WADER STUDY GROUP ANNUAL MEETING, WORCESTER, U.K., 1-2 SEPTEMBER 1984	15-17
REQUEST FOR INFORMATION - Barnacle Geese and Pink-footed Geese	17
ON WADERS IN WORCESTERSAUCE: A PERSONAL VIEW OF THE 1984 ANNUAL WADER STUDY GROUP MEETING by Cor Smit	18
ESTIMATION OF THE PROTEIN RESERVES OF WADERS: THE USE AND MISUSE OF STANDARD MUSCLE VOLUME by Theunis Piersma, Nick Davidson and Peter Evans	19-22
TIME-BUDGETS OF TRANSIENT GREENSHANKS IN DENMARK by Arne Kiis	23-24
NEW WORLD SECTION	25
ABSTRACTS OF TALKS ON SHOREBIRDS GIVEN AT THE AOU ANNUAL MEETING, LAWRENCE, KANSAS, 6-9 AUGUST 1984	25
THE PAN AMERICAN SHOREBIRD PROGRAM: A PROGRESS REPORT by J.P. Myers, Gonzalo Castro, Brian Harrington, Marshall Howe, John Maron, Enrique Ortiz, Michel Sallaberry, C.T. Schick and Elier Tabilo	26-30
NOTES ON THE PREDATORS, ESPECIALLY THE PEREGRINE, OF SANDERLINGS ON THE PERUVIAN COAST by Luis E. Bertochi, Gonzalo Castro and J.P. Myers	31-32
SOUNDS OF SHOREBIRDS 2. EVOLUTION by Edward H. Miller	33-35
NOMOGRAMS FOR ESTIMATING THE STAGE OF INCUBATION OF WADER EGGS IN THE FIELD by Rhys Green	36-39
AGEING CRITERIA FOR DUNLINS by Nigel Clark	39
WADERS KILLED BY HAILSTORM by Frank Mawby	40
THE USE OF SALINAS BY WADERS IN THE ALGARVE, SOUTH PORTUGAL by Rui Rufino, Antonio Araujo, Joao P. Pina and Pedro S. Miranda	41-42
AUTUMN AND WINTER NUMBERS OF WADERS IN THE TEJO ESTUARY, PORTUGAL by Rui Rufino	43-44
REQUEST FOR INFORMATION - Cormorants	44
ASPECTS OF CENSUSING BREEDING LAPWINGS by John and Catrina F. Barratt	45-47
REQUEST FOR INFORMATION - Bar-tailed Godwits	47
RECENT PUBLICATIONS ON WADERS compiled by Theunis Piersma	48-55
REVIEW by Neil Metcalfe	56
RECENT RECOVERIES OF WADERS RINGED IN BRITAIN AND IRELAND compiled by Nigel and Jacquie Clark	57-59
LIST OF MEMBERS - CHANGES SINCE BULLETIN 41	60

EDITOR

N.C. Davidson Department of Zoology, University of Durham, South Road, Durham DH1 3LE, U.K.
(tel: office 0385-64971 ext. 579; home 0207-520702)

Thanks for help in the production of this issue, or the circulation of the last, to Ann Perry, Ray Bishop, John McMeeking, Steve Carter, Nigel and Jacquie Clark, Mike and Ann Pienkowski, Sue Davidson and Mr. Reg Davis of Minizen Ltd.

Deadlines for Bulletin 43 (April 1985)

All items should be received by 1 February. Articles and papers must be received well before this date to stand a reasonable chance of inclusion in the April issue.
