RECENT RECOVERIES OF WADERS

compiled by Phil Holland

Data has been provided by Kim Lowe (Australia) and Nicola Baccetti (Italy) and the British Trust for Ornithology. Permission should be sought from the appropriate National Ringing Scheme before using these data in publications.

If you are able to provide data for this section please send it to Phil Holland, 2 Rennie Court, Lancaster, LA1 5XE, U.K.

Symbols. Age is coded according to EURING code, v = caught and released (i.e. controlled), vv = ring number and colour marks (dye or rings) read in the field, + = shot or killed by man, x = found dead or dying, ? = manner of recovery unknown. Co-ordinates are generally only given when the locality is first mentioned.

Data used. British Isles. Recoveries since last bulletin which are over 100 km (Oystercatcher 600 km) or 6000 days (Oystercatcher 7300 days).
 Italy. Recoveries since Bulletin 53; 100 km; 3000 days.
 Australia. Selected by source.
