Supplement to Bird-Banding Vol. 49, No. 2

Corrections—In the issue of *Bird-Banding* (Autumn 1977, Vol. 48, No. 4), several errors appeared in the article "Weights and Measurements of Vancouver Canada Geese" by John T. Ratti, Daniel E. Timm, and Fred C. Robards. In addition to several obvious typographical errors in spelling, in Table 1 both "bill length" and "bill width" refer to the nail of the bill; on p 355, line 2, the word "differences" should be changed to "relationships"; and Dr. John T. Ratti's present address is Department of Wildlife and Fisheries Sciences, South Dakota State University, Brookings, SD 57006. These errors were caused by a loss of proofs in the U.S. mail.
