

INSTRUCTIONS TO CONTRIBUTORS

All articles and notes should be submitted to the editor in duplicate, typed, double-spaced throughout (including tables, literature cited, etc.), and on one side only of good quality paper. Dot-matrix printers associated with home computers generally **do not** produce copy suitable for submission to the *Journal of Field Ornithology*. Xerographic copies are acceptable as long as they are not on heavy, slick paper. **Paper** on which manuscripts are typed and any **figures** submitted with the manuscript **must not exceed** 21.5 × 28 cm (8½ × 11 in). Figures are best submitted as glossy 13 × 18 cm (5 × 7 in) prints.

Manuscripts submitted to the *Journal of Field Ornithology* must be original and should not have been published, nor submitted for publication elsewhere, even in part.

Preparation of manuscript text.—Use a short, descriptive title. Leave ample margins on all sides, number each page, and do not use footnotes. Manuscripts with fewer than 5 literature citations should include citations within the text in abbreviated form; those with 5 or more citations should include a Literature Cited section at the end of the manuscript. The scientific name of an organism should be given the first time that the organism is mentioned and should be underlined—do not use italic type. Metric measurement units should be used. Measurement unit abbreviations should be those given in the fourth edition of the Council of Biology Editors Style Manual (1978). Each table title should be concise and should appear at the top of the table. All figure captions should be typed double-spaced one after another on a page or pages preceding the figures. Do not indicate figure number or print the caption on the face of the figure. The author's name and the figure number should be printed on the back of each figure.

Preparation of figures.—Figures should be uncluttered but should convey a maximum amount of information. They should not duplicate information presented in text or tables. In preparing figures, use "thin" rather than "fat" letters such that reduction of the figure will not result in the closure of spaces in letters such as "e" and "p." Lettering on a figure should not be typed.

Preparation of literature citations.—Literature citations should follow the styles used in the *Journal of Field Ornithology* beginning in the Autumn issue, 1980. Journal names should be abbreviated using the abbreviations found in *BIOSIS*. Unpublished papers or reports not generally available should not be cited unless a copy has been deposited in the van Tyne Library at the Museum of Zoology, University of Michigan, where they may be obtained for use by other researchers. Do not cite manuscripts that are in preparation.

Note: New manuscripts submitted for possible publication in the *Journal of Field Ornithology* should be sent to our editor-elect:

Dr. Edward H. Burtt, Jr.
Department of Zoology
Ohio Wesleyan University
Delaware, OH 43105

CONTENTS

BREEDING CHRONOLOGY, MOLT, AND MEASUREMENTS OF ACCIPITER HAWKS IN NORTHEASTERN OREGON By Charles J. Henny, Roger A. Olson, and Tracy L. Fleming	97
ON THE PLUMAGE OF NESTING RING-BILLED GULLS OF DIFFERENT AGES By Hans Blokpoel, Peter J. Blancher, and Peter M. Fetterolf	113
A MATHEMATICAL MODEL TO ESTIMATE THE FREQUENCY OF FEMALE-FEMALE OR OTHER MULTI-FEMALE ASSOCIATIONS IN A POPULATION By Michael R. Conover and Donald E. Aylor	125
A COMPARISON OF THE "FLUSH" AND SPOT-MAP METHODS FOR ESTIMATING THE SIZE OF VESPER SPARROW TERRITORIES By J. Michael Reed	131
A REVIEW OF RECENT IRRUPTIONS OF THE BLACK-BACKED WOODPECKER AND THREE-TOED WOODPECKER IN EASTERN NORTH AMERICA By Robert P. Yunick	138
HUMAN DISTURBANCE AND NEST SITE PLACEMENT IN BLACK-BILLED MAGPIES By Richard L. Knight and Richard E. Fitzner	153
SEXING LAUGHING GULLS USING EXTERNAL MEASUREMENTS AND DISCRIMINANT ANALYSIS By Lise A. Hanners and Stephen R. Patton	158
ANALYSIS OF DROPPINGS TO DESCRIBE DIETS OF SMALL BIRDS By Carol Pearson Ralph, Stephanie E. Nagata, and C. John Ralph	165
GENERAL NOTES	
RESPONSES OF NESTING RED-WINGED BLACKBIRDS AND YELLOW WARBLERS TO BROWN-HEADED COWBIRDS Karen L. Folkers and Peter E. Lowther	175
USE OF A MIRROR TRAP TO CAPTURE TERRITORIAL WATERFOWL Jean-Pierre L. Savard	177
INFLUENCE OF BAND SIZE ON RATES OF BAND LOSS BY COMMON TERNS Ian C. T. Nisbet and Jeremy J. Hatch	178
YEARLING MALE LONG-EARED OWLS BREED NEAR NATAL NEST Jeffrey S. Marks	181
NECKBAND A HANDICAP IN AN AGGRESSIVE ENCOUNTER BETWEEN TUNDRA SWANS Lori L. Hawkins and Susan G. Simpson	182
RECOVERIES OF FERRUGINOUS HAWKS BANDED IN SOUTH-CENTRAL NORTH DAKOTA David S. Gilmer, David L. Evans, Paul M. Konrad, and Robert E. Stewart	184
ATTRACTION OF SOCIAL FRINGILLIDS TO MINERAL SALTS: AN EXPERIMENTAL STUDY Robert E. Bennetts and Richard L. Hutto	187
