THE RAPTOR RESEARCH FOUNDATION, INC. PUBLICATIONS INDEX

Raptor Research Reports No. 6, The Ancestral Kestrel
The Journal of Raptor Research, Volume 21
The Journal of Raptor Research, Volume 22

COMPILED BY RICHARD R. OLENDORFF AND JIMMIE R. PARRISH

The Raptor Research Foundation Bibliographic Index (*Raptor Research Reports No. 7*) covers the first 20 years of the Foundation's publications. The system used to compile the 20 year index is called LIT, which is a menu-driven literature retrieval system using dBASE. Coupled with an exhaustive Ornithological Keyword List, the system provides literature retrieval by author, title, citation, species, geographic location and subject in an extremely user-friendly manner.

Recently, the Foundation made the decision to use the system to produce annual indices traditionally published at the end of each volume. The continuity provided should give every user easy access to an extensive raptor data base. The following index covers 3 documents, *Raptor Research Reports No. 6* (The Ancestral Kestrel), Volume 21 and Volume 22 of *The Journal of Raptor Research*. The index is presented in the same format as the 20 year index, using an Ornithological Keyword List which matches numbers assigned to individual papers appearing in indexed volumes. Numbers appearing at the beginning of each article in the contents of each volume are listed with the appropriate Ornithological Keyword. The keyword list is divided into 3 parts, Subject—Author Index, Species Index—Common Name, and Species Index—Scientific Name. An asterisk (*) following a number in the species keyword lists indicates that the article is wholly or substantially dealing with that particular species. A hyphen (-) following a number in the species keyword lists indicates that the species is treated less substantially or is mentioned only in passing.

Further details on how to obtain the LIT System and the Raptor Research Foundation Publications Data Base are provided in *Raptor Research Reports No. 7*, or may be obtained by contacting Richard R. Olendorff, 6009 Viceroy Way, Citrus Heights, CA 95610, U.S.A.

1985 Peregrine Falcon Conference Proceedings

The Peregrine Fund, Inc., is pleased to offer **Peregrine Falcon Populations: Their Management and Recovery**, the proceedings of the 1985 Peregrine Conference held in Sacramento, California, in conjunction with the 20th Annual Meeting of The Raptor Research Foundation, Inc. The Peregrine Conference was the 20th anniversary of the now-famous Madison Peregrine Conference convened by Joseph J. Hickey in 1965 at the University of Wisconsin. This hardbound book with four-color jacket is an 850+ page, single volume edited by Tom J. Cade, James H. Enderson, Carl G. Thelander and Clayton M. White, with an Introduction by Tom J. Cade and a Foreword by Roger Tory Peterson. The book includes 81 chapters by Peregrine researchers from around the world, four commentaries and a Conference Summary by Ian Nisbet. Several chapters have been added to those presented at Sacramento, as well as 32 pages of photographs, a four-color plate of a Peregrine painting by Jim Grier, additional artwork by John Schmitt and an up-to-date world distribution map. Sections include: conference keynote addresses by J. J. Hickey, D. A. Ratcliffe and M. W. Nelson; status of Peregrine populations since 1965-North America; status of Peregrine populations since 1965-Europe; Peregrines in the rest of the world; DDT and other chemical problems; migration and banding studies; captive propagation, reintroduction, and management; dynamics and ecology of Peregrine populations; geographic variation in Peregrine populations; and Man and the Peregrine. **Copies can be ordered at the price of \$45.00 U.S. plus \$3.75 postage and handling in the United States. Foreign shipping per copy, \$5.00 surface, \$20.00 airmail.** Privately published by The Peregrine Fund, Inc., as an informational service, this volume represents a real bargain. **To order send check or money order (U.S. funds only; please, no cash) to The Peregrine Fund, Inc., World Center for Birds of Prey, 5666 West Flying Hawk Lane, Boise, ID 83709.**
