rate quoted in the inserted folder ] The special price is extended to April 30, 1984. *American Birds* recommends that you subscribe to *British Birds*, and vice versa!

#### NORTHEASTERN BIRD-BANDING ASSOCIATION RESEARCH GRANT

The E. Alexander Bergstrom Memorial Research Fund of the Northeastern Bird-Banding Association, Inc., promotes research on birds. Small grants, usually not exceeding \$200., are available to cover expenses but not salaries or overhead charges to institutions. Further details and application forms may be obtained from Susan Roney Drennan, Chairman, NEBBA Research Committee, *American Birds*, 950 Third Avenue, New York, NY 10022. The deadline for filing completed applications is March 1, 1984.

## ANNOUNCEMENTS

INSERTED IN this issue of *American Birds*, is a folder advertising the highly-regarded publication *British Birds*, which is making this effort to attract more readers from North America. Those of us who are regular readers of this compact and fact-packed journal consider it an exemplary endeavor and a mine of ornithological information. Although devoted to the birds of the British Isles, their identification, distribution, status and behavior, much of its content is pertinent to regions farther afield, including North

America. Some of its exhaustive treatments of bird identification, for example the series on gulls by Peter Grant have found their way in highly-praised book form to these shores. Now, because of our special complementary relationship, *British Birds* is offering readers of *American Birds* a 25% reduction in its subscription (one-year) rate, from £21 to £15.75, with payment in a draft in Sterling preferred. [For payment in *dollars*, add £1 and convert at the *current* exchange rate. This exchange rate is not the same as the

### ALASKAN BIRDING

One of Alaska's only lodges where you join a year-round resident family. Sincere, informal hospitality in a cradle of spectacular sea and mountain panoramas. Gateway to the Kenai Fjords, this roadless area with McKinley and the Probluffs is the place in Alaska for birders, naturalists, photographers and wilderness enthusiasts. The world's 2nd largest tides, prolific sea bird and marine productivity set this area apart from all others. Smoking volcanoes, blue ice glaciers, nesting eagles, sea otter, seal and sea lion, whales. Untracked beaches, forest trails, help pull crab pots, catch salmon, trout, visit our remote brown bear photographic camp near McNeil River Sanctuary (world's largest concentration) or mountain lake fly-in camp. An in-depth experience with Mike McBride Reg. Guide, Naturalist. Bush plane fly-in 5 days with guide \$1500.

## BIRDS OF ARCTIC ALASKA

A superlative in North American wilderness bird tours!

Conducted to offer maximum exposure to the nesting and breeding-plumaged birds of arctic Alaska.

Bird some of the most diverse habitats and spectacular country in Alaska. Travel by vehicle from the fringes of the mighty Yukon River basin to the northern-most treeline in North America, across the arctic continental divide of the immeasurable Brooks Range and out onto the broad, arctic coastal plain, "the tundra," and to the shores of the Arctic Ocean.

Over 100 species, including Arctic Warbler, Wheatear, Gyrfalcon, Smith's Longspur, Buff-breasted and Stilt Sandpipers, Sabine's Gull, Spectacled Eider, Hawk Owl and possible Siberian Chickadee.

Photograph Dall sheep, grizzlies, barren ground caribou and arctic foxes in their natural habitats with an emphasis on interpretative arctic ecology and general natural history.

Departure dates June 6, 15, 25 and July 5. Send for detailed pamphlet and information. Group size limited to 12 and each tour accompanied by a recognized Alaskan bird leader.
