

Share the Adventure

... of the birding experience.

Founded in 1926, Swift Instruments Inc. has sponsored* adventures in birding on many fronts. After extensive research with ornithologists on the ideal characteristics needed for bird watching, Swift pioneered binoculars for birders with their Swift Audubon 8.5X,44 in 1960. This tradition has been expanded to create ideal optics for birders of all ages. Swift offers a complete line of quality binoculars and spotting scopes, utilizing the latest technological advances.

**Introducing
the Zeiss
DiaScope. No
telling what
details
you'll see.**

DiaScope 65A FL

DiaScope 65S FL

DiaScope 85A FL

DiaScope 85S FL

It's the details that make our new spotting scope revolutionary. Superior fluoride glass and patented lens coatings for low-light sightings. Comfort features such as dual focus, sun shades and pop-up eye cups. Even interchangeable eyepieces. And one other thing. It weighs less and costs less than you think. For more information, call 1-800-441-3005 or visit zeiss.com.
