THE FALL MIGRATION

SWAROVSKI ATS & STS 65 MM SPOTTING SCOPES

A WHOLE "NEW CLASS" OF SPOTTING SCOPES

STS 65

ATS 65

*ATS 65 scope
compared to an
average 77-85 MM
scope size*

The new, Swarovski ATS 65/ATS 65 HD and STS 65/STS 65 HD spotting scopes, deliver big, premium scope performance in a smaller and lighter package. Independent experts who have compared the new ATS 65 with other premium-spotting scopes, regardless of size, agree that the new 65 MM scopes are superior in most all aspects of optical and

ergonomic performance. The new 65 MM scopes even compare favorably with the weight and size of popular 60 MM scopes while delivering the performance of much larger scopes.

When you combine the finest optical resolution, image brightness and

contrast into a smaller, more rugged and lighter weight package, you create a new Premium Reference Standard by which all other spotting scopes will now be measured. And, all of this comes with a surprisingly affordable price considering the premium quality you receive.

But don't just take the experts' word for it; see the "New Class" for yourself. Call: 800-426-3089, e-mail: info@swarovskioptik.com or visit: www.swarovskioptik.com for more information.

This Wood Stork—part of a large flight of this species in late summer that spanned from Chicago to Cleveland to Pelee to upstate New York, and even to Québec—brightened Littlestown, Pennsylvania 21 August 2001, one of two birds found in that state. A flight on this scale had not been observed in decades in most of these areas. Photograph by Rick Wiltraut.

NORTH AMERICAN BIRDS

is published by the American Birding Association.

The mission of the journal is to provide a complete overview of the changing panorama of our continent's birdlife, including outstanding records, range extensions and contractions, population dynamics, and changes in migration patterns or seasonal occurrence. We welcome submission of papers in these areas; papers and other communication should be sent to the Colorado Springs address below.

ABA SALES

Specializing in books, optics, and accessories. One-stop shopping for birders.

JanSport Newt

This technical bag is designed for birders and naturalists that prefer a more traditional daypack, providing convenient access to field guides, water, and other gear. It comes with a waterproof rainfly hidden in a special pocket in the bottom of the pack, a large main compartment, a second full-length pocket designed to hold hydration bladders, and many other smaller pockets for anything you need in the field. Rain-forest green.

Item #J45063, ABA Sales Price \$72.00 (List price \$77.00)

JanSport Roadrunner

The new JanSport Roadrunner is a technical shoulder bag designed specifically to fit the needs of birders. Many birding trips involve a series of getting in and out of the car and short or long walks. Putting a traditional daypack on and off each time can be too much trouble. The Roadrunner is a shoulder bag designed to sit on the seat next to you, yet fast and easy to simply slip onto your shoulder with ready access to everything you might need. The bag is asymmetrical and wraps around your body for a snug fit. It is large enough to carry an oversized field guide, such as the Sibley, camera, binoculars, lunch, and has special padded pockets for a water bottle, GPS, radio, cell phone, or recording gear. Rain forest green.

Item #J45060, ABA Sales Price \$46.00 (List price \$50.00)
